ASEP NEWS

It's been quite the ride getting here!

Our Food of the Month Curriculum for January was a lot of fun. We hope your children have been telling you all about the cool activities we have been doing this month with different veggies and types of nuts. Please look at the FOM Newsletters to bring the fun and learning into your home.

A few things are going to be changing with regarding registration.

1. Full payment is required to register. This is true for all our programs.
2. All registration & scholarships will be handled at the Montrose Recreation Center at 970-249-7705.
3. We will accept payments for previous balances at the Field House.

We deeply understand that these times are difficult for families to pay upfront, and hope this advance notice allows you the time to plan for this expense. We are happy to offer partial scholarships to families who are in need of assistance. Call the CRC for more information. Capacity is limited, and spots are filled on a first come, first served basis.

We thank you for all your dedication to this program,. We will continue to all work together to navigate through this challenging time.
