

OCTAE Connections

Office of Career, Technical, and Adult Education
Unlocking Career Success

1. Connecting Jail-Based IET Programs to Career Pathways

The Office of Career, Technical and Adult Education (OCTAE) and the ADVANCE IET team are delighted to invite you to a live webinar on ***Connecting Jail-Based IET Programs to Career Pathways*** on 7/11/23 from 3:30 – 4:30 pm ET hosted by the [ADVANCE Integrated Education and Training \(IET\)](#) federal initiative. **Register at this link.**

Representatives from the [Integrated Education and Training \(IET\) in Corrections](#) federal initiative, Michelle Tolbert and Jessie Stadd from RTI International, will share how to partner with jails to design and deliver Integrated Education and Training (IET) programs. They will present an overview of educational programs in jails and describe how jail-based IET programs can connect learners to career pathways as their correctional status changes. Panelists currently offering programs in jails will also share their partnership experiences and lessons learned from IET development and delivery.

This event is open to all adult educators – please share with your colleagues!

We invite you to also check out the [IET Design Toolkit](#) and the [IET in Corrections companion guide](#) to the Toolkit in the [LINCS Resource Collection](#).
