CRITICAL OZ UPDATES

LEARN HOW THE NEW REGULATIONS OPEN OPPORTUNITIES FOR BUSINESSES,
INVESTORS, AND PROPERTY OWNERS.

The Treasury's April tranche of proposed Opportunity Zone regulations paves the way for numerous new possibilities for existing property owners and operating businesses. This presentation by experts well-versed in this ever-evolving topic will address how these new regulations build on past regulations, resolve a variety of concerns, and what issues are still unclear. Please share this opportunity with colleagues and clients and especially: commercial lenders, for- and non-profit developers, property owners, business owners, wealth managers, brokers, attorneys, and other professional advisors.

Presentation and Q&A session by [Adam Sweet](#), JD, LLM, Principal, Eide Bailly, LLP; and [Bill Simer](#), CPA, Partner, Eide Bailly, LLP.
