REFUND.**

Life in the city is different than life in the country! This comprehensive look at Rural Property topics will help you find your way through the maze of Land Brokerage with more confidence! If your real estate practice includes land & acreage properties then you should take this class! Even experienced Land Brokers have come away from this class with new ideas & expanded knowledge. Many buyers are very inexperienced at country living but they deserve to hire a knowledgeable Broker to guide them to a successful purchase.

Joe Garst says "At some point, every broker will have the opportunity to represent a client in a transaction that involves a well, septic system or acreage. As a Real Estate Professional you need to be knowledgeable of what's involved to property advise and navigate your clients through the process. This class should be a requirement and Jim Palmer, Jr. has the hands-on experience to guide REALTORS® through the process".
