Introduction

This document will outline the steps a **Security Official** needs to take to **approve or deny requests from additional users**, so they can view information about or perform an action, such as submitting performance data on behalf of the organization.

Previously, Security Officials reviewed and approved role requests for their organization(s) through the Enterprise Identity Data Management (EIDM) System. Beginning December 2018, all Security Officials will approve requests by signing in to the Quality Payment Program website, qpp.cms.gov. This will allow Security Officials to manage all of their Quality Payment Program activities in one place.

The main difference between the Security Official role and the Staff User role is that Security Officials are responsible for approving (or denying) requests from additional users for their organization. If you are the only Security Official for your organization, you will be responsible for approving all requests.

There are three simple steps for approving role requests:

1. Sign in to Quality Payment Program website at qpp.cms.gov
2. Navigate to Manage Access tab
3. Approve or deny the Pending Requests in your queue

Helpful hint

Consider adding a second (or third) Security Official to your organization to ensure someone is always available to approve requests. There is no limit to the number of Security Officials your organization can have.

Step 3. View Pending Role Requests

As a **Security Official**, you are responsible for **reviewing** outstanding role requests from other users and either **approving** or **denying** their requests.

You can view pending role requests directly on the **Manage Access** page or by clicking a link to **View Users** associated with an organization. Note this option only displays for Security Officials.

The screenshot shows the 'Manage Access' page in the Quality Payment Program. The header includes the program name and navigation links for MIPS, APMs, About, and the user's name (Elizabeth). The left sidebar lists navigation options: Home, Eligibility, Performance Feedback, Manage Access (selected), and Help and Support. The main content area is titled 'Manage Access' and features a 'Pending Requests (2)' section. The first request is for Thomas Miller, MD, a Staff User at Acme Clinic, LLC, with 'APPROVE' and 'DENY' buttons. The second request is for Elizabeth Blackwell (You), a Security Official at Greenville Medical Clinic, with a status of 'Waiting for approval from the current Security Official(s)'. Below this is a 'Connected Organizations (3)' section with tabs for APM ENTITIES, REGISTRIES, VIRTUAL GROUPS, and PRACTICES. Under 'Acme Clinic, LLC', there are sections for 'YOUR ROLE' (Security Official), 'CMS WEB INTERFACE AND CAHPS' (CMS Web interface, CAHPS Survey), and 'USERS' (3 connected users, 1 pending user). A 'View users' link is highlighted with a red box.

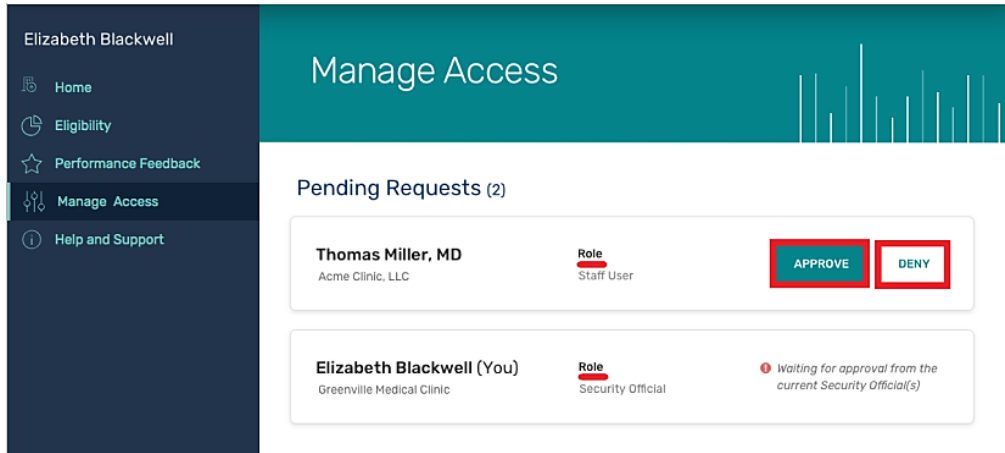

Do role requesters know who their Security Official(s) are?

Yes, individuals with pending role requests will be given the name of their organization's Security Official(s) for whom they can contact for role updates.

Pending Requests on the Manage Access page

This page includes any role requests you have **initiated** and any **pending requests from other users** that you need to approve or deny as a current Security Official for an organization(s). If you are a Security Official for multiple organizations, you will see pending requests for all of the organizations you represent on this page.

Monday – Friday, 8am – 8pm EST

Each request will identify the name of the requester, the role they are requesting and the organization they represent. Select **Approve** or **Deny** next to each name as appropriate.

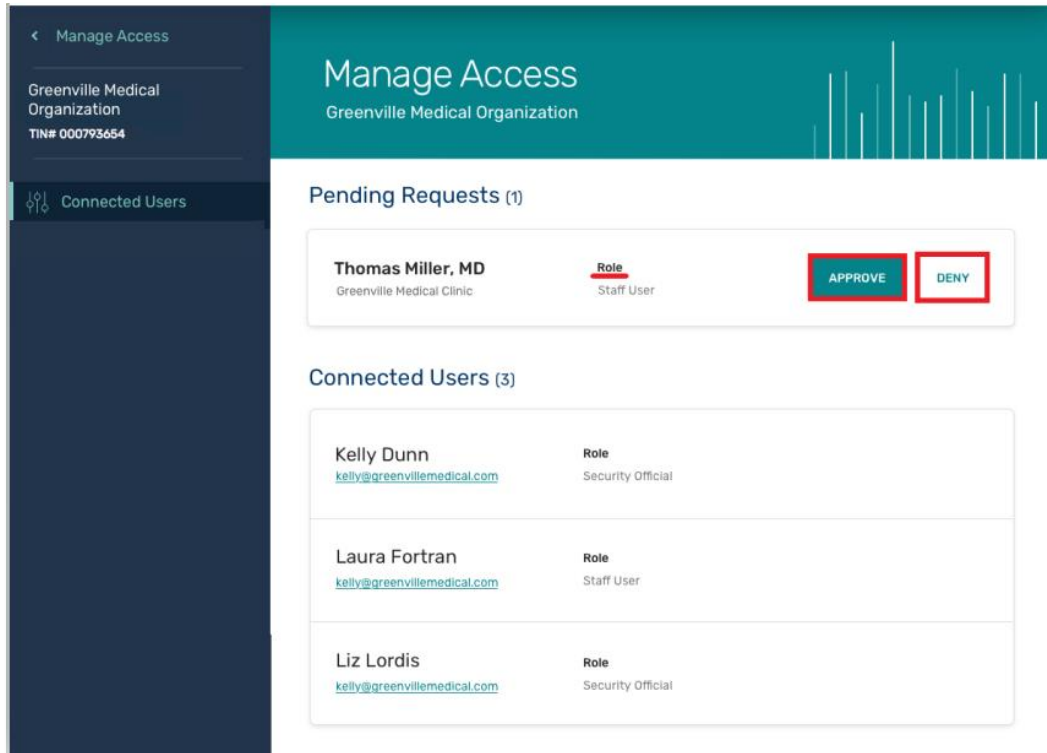

Pending Requests Connected Users page

Under the Connected Organizations section, find the **organization name** you are interested in reviewing. Then, click **View Users** (only visible to Security Officials) to view all of the organization's **connected users**.

Here, you can view **all users** associated with the organization, this includes **connected** users and users with **pending role requests**. Select **Approve** or **Deny** next to each name as appropriate.

 Monday – Friday, 8am – 8pm EST

The Pending Requests section will identify the name of the requester and the role they are requesting.

Step 4. Confirmation

You will receive a pop-up notification and an email notification confirming your decision to approve or deny a request.

Note that the users you are approving and denying roles for will also receive an email notification informing them of your decision.

Next Steps

- Monitor your email for pending request notifications so you can approve them quickly.
- Consider asking another person in your organization to request the Security Official role so there is always someone available to approve requests.

Best practice

Consider creating a recurring calendar reminder to sign in to gpp.cms.gov so you can review and approve any pending requests during high volume request periods.

FAQs

How are requesters notified of my decision to approve or deny their request?

Requesters will receive an email telling them whether their request was approved or denied. This email will be sent to the email address they provided when registering for their HARP account.

I accidentally denied a request that I meant to approve. What do I do?

Please contact the person whose request you denied and ask them to resubmit their request. If you don't know how to contact the person, you will need to wait for them to resubmit the request on their own.

How many requests should I expect to approve?

This depends on the size of your organization and how your organization will submit data. Generally, you should anticipate a higher volume of requests prior to and during the submission period, and during the targeted review period. For additional information on the submission period for this program year, please visit the [Quality Payment Program Website](#).

How do I remove a user who should no longer be authorized for my organization?

Please contact the Quality Payment Program using the information at the bottom of each page of this document.

What does the Edit Registration link do?

If your organization registered for the CMS Web Interface and/or CAHPS for MIPS survey, this will be indicated by a green checkmark in your QPP Account under the organization's information and you will see a link to Edit Registration.
