

# DEDICATED WOMEN'S SHELTER

Community Teamwork is also working to open a 60-bed shelter for homeless women. It is widely known that co-ed congregate shelters are often not safe for women. Opening a shelter for just women will free-up beds at other shelters in the community and allow us to focus on this often-overlooked population of homeless individuals.

As we work to secure a site, we are planning for significant acquisition and renovation costs. We are excited about this new opportunity to serve the women in our community who are housing insecure and need a second chance.
