

## Newton Community Farm: For Our Future

**NCF is investing in our future** in order to serve this community in a deeper and more meaningful way. We are adding programs, events, classes and community events, and have expanded the capacity of our summer camp. We are researching ways to make our farm operations more sustainable, and to make sure that the benefits of NCF are accessible to all. To support this growth, NCF needs lead donors to invest in sustainable agriculture here in Newton, and to educating the next generation to protect our natural resources and food system.

**Lead Donors will make substantial investment in the health of our community.** We are looking for individuals who already understand the value of this local resource, and who have demonstrated a commitment to the values it represents. You are a part of this select community, and we invite you to commit to contributing to our annual campaign in one of the following amounts each year for three to five years:

**Please join our For Our Future Campaign**, and be a part of ensuring that Newton Community Farm continues to be a vibrant part of Newton, where we grow food, minds, and community. As a For Our Future donor, you'll be listed in our newsletter, and on our website as one of this group of visionary donors investing in the next phase of NCF. In addition, you'll receive all of the benefits of Friends of the Farm, including an annual print of the Farm by a local artist, a private tour with our Executive Director, discounts on classes and events, and the opportunity to pre-order at the Seedling Sale and participate in the CSA.

**Newton Community Farm**  
303 Nahanton Street, Newton, MA 02459
