Prayer Needs

-Continue to pray for the Congolese people, the government, and the church. The pandemic has caused people to lose work and not be able to provide for their families. People live day-to-day here and are unable to make provisions.

-Pray for the churches around the world and for people to see their part in being the church in their neighborhood, during this crisis. God has not stopped working and desires to use each one of us.

-Pray for travelling mercies and continued good health.

-Pray for my heart, as I leave without being able to say good-bye to many of my Congolese friends, colleagues, and students for a year of furlough. This is not how I would have liked my second term to end. But God knows...

At the end of February, my two sisters and sister-in-law (pic'd on right) came to visit for six days. We had a lot of adventures visiting schools, churches, closed parks, bush roads, and walks on the river road. Some of them tried caterpillars, and they all tried fufu, fish, pandu (Congolese greens), and mangoustan. They survived the heat and the traffic of Kinshasa. I loved introducing them to all my friends and colleagues!

"You will keep in perfect peace those whose minds are steadfast, because they trust in you." Isaiah 26:3

Hello my faithful prayer warriors, and partners in this ministry! Thank you for continued giving and prayers. So much has happened in the last several months and yet nothing has happened. God is FAITHFUL! You have been faithful and I am so blessed by YOU! Please know you are in my prayers and my thoughts almost daily. I could not do this without you. Forgive me for being late on sending out this update. The last five months have been interesting. In January, I flew to Thailand via South Korea to take classes to begin a PhD program in Intercultural Education. I am excited to see where God will use this in my ministry and teaching. I spent 24 hours in South Korea and met a student I haven't seen in 20 years. Julia was happy to take me to dinner with a friend and we had a great time catching up in the few hours that we had. I taught her for three years in Brussels. The end of Jan-Feb, I taught day & night classes at the Theological Seminary in Kinshasa. It was a great group of students who loved discussing the Word of God and ministry.

I have and will continue to pray for you all during this difficult time and believe God has GREATER things ahead for each one of you. As we say here in DRC, "Nous sommes ensemble!" (We are in this together!)
