Stanley Mosk	ST		
Sylmar Juvenile	SJ		
Torrance	TR		
Van Nuys East	VE		
Van Nuys West	VW		
West Covina	WC		
Whittier	WH		

NOTES:

- Case numbers will be as follows: YYLLCC##### (year, location, litigation type, case sequence number)
- All litigation types will have five numeric digits
- A three digit suffix (001, 002, 003, etc.) following the end of the case number will identify multiple defendants in criminal cases.
- Juvenile Delinquency – Initial petitions will be issued a case number with an alpha indicator (A) following the case number; subsequent petitions filed while the minor is under wardship will be filed under the same case number followed by a subsequent alpha character (B, C, D ,etc.) Once wardship is terminated on all petitions within a case, the case numbering schematic for an initial petition will be followed.
- Juvenile Dependency – Case numbers will be assigned per minor and will be followed by an alpha character (YYCCIP123456A); minors with the same mother will have the same case number sequence followed by the subsequent alpha character so that cases can be separate per minor but associated by family. Subsequent petitions for a minor will be added as an event within the same case.
