

Please note: all traditional hunter safety classes throughout the state have been cancelled by the Wisconsin Department of Administration due to concerns of the Covid 19.

Internet Field day classes will be allowed to be done and in an effort to utilize the field day originally set up for the traditional class I have arranged an internet field day to be done on the original date.

The Internet Field Day class will be held on Saturday, March 20, 2021. Location will be at the Dundee Sportsman Club, N3019, WI-67, Campbellsport WI 53010. Class will start at 8:00 am and end around 1:30 pm. Please register on line only and include your email address when doing so. We prefer students to be a minimum of 11 years old to take the course. It is recommended to have a mentor available to assist the student as the online study is being done. Please be sure to bring along your completion certificate of the online study. The fee for the field day course is \$10 and payable at sign in. Face masks are mandatory for all participants and instructors. Individuals are asked to bring along their own masks to the class. This includes parents and guardians. There will be no exceptions. All students will be asked questions regarding current health prior to sign in. If there is any doubt of the health of a student they will not be allowed to enter the building and asked to leave the location. Sign in of the students will be done outside with parent or guardian. All none students, to include parents and guardians are asked to remain out of the building during class time. Please return to pick up your student when class has ended at approximately 1:30 pm. Students are asked to bring along their own water and lunch snacks

Thanks you for your cooperation and feel free to contact me with any questions you may have.

Rick Heisler
Campbellsport Hunter Safety Lead Instructor
