

California Consulting Co-Hosts Successful Prop. 2 Webinar with Key Education and Industry Leaders

Invites you to a special K-12

PROP. 2 WEBINAR

APRIL 10, 2025 @ 1:00PM

Come and learn about the grant dollars available from the recently passed Proposition 2 with a special presentation from CASBO members Sara Slater of Long Beach Unified School District and Chris Delehanty of Del Mar Union School District. We will also have an economic update from Kosmont Companies and an update from Alco Building Solutions. Get ready for an exciting, highly informative webinar!

We'd like to extend our heartfelt thanks to our incredible co-hosts — CASBO, ACSA Region 18, CSBA, Kosmont Companies, Alco Business Solutions, and CalSchoolNews — for their support in delivering this essential conversation. Proposition 2 is designed to strengthen California's long-term fiscal health by building rainy day reserves and ensuring protections for education spending. With over 120 registrants from across the state, it's clear that school and district leaders are eager to learn how Prop. 2 can benefit their communities.

The webinar featured insightful presentations by Sara Slater (Long Beach Unified School District) and Chris Delehanty (Del Mar Union School District), who shared how Proposition 2 is already making an impact. Attendees also received a timely economic update from Kosmont Companies and a forward-looking energy and facility update from Alco Business Solutions.

California Consulting is proud to be part of such an important dialogue and remains committed to helping public agencies and educational institutions access vital funding. Stay tuned for more events and opportunities to learn how your organization can benefit from new state and federal initiatives.
