Often its support takes the form of seed monies to move innovative founders forward in their work, or as incremental support to a more established organization that is ready to take on activities at a new level of complexity or commitment. Over the past few years the Foundation has focused on core areas: *The Arts* – a broad category that includes arts education, a focus on jazz, and support to professionals. This also includes programs that seek to use the arts to help meet the needs of underserved and at-risk youth and to help build competencies that will enable them to become successful adults. The other core area is *Compassion and Well-Being*, which celebrates the positive aspects of human psychology and encourages a more compassionate society.

The Foundation's goal is to assist individuals in becoming successful, self-sustaining, contributing citizens. The Foundation is interested in programs that break down any barrier that prevents a person from continuing to grow and learn through grant programs including:

- 1) *Education*: Education is the primary focus of the Foundation. The Foundation supports education programs in K-12, at both public and private schools, that seek to solve the existing problems in Los Angeles area schools. These grants for education reform can be made directly to the schools or to independent organizations which are closely involved with this issue. In addition, the Foundation provides funds to private secondary schools, colleges and universities for student financial assistance, in the form of both scholarships and loan programs. Favor is given to those programs directed at talented middle-income students who are unable to obtain assistance from sources specifically available to low income students.
- 2) *Community, Health, & Social Services*: The Foundation is also committed to improving the quality of life in the local community. The Foundation supports programs that encourage all individuals to reach their fullest potential. The best chance a young person has to reach that goal is to stay in school, inside a functioning family, and outside the juvenile justice system. To that end, the Foundation supports programs that deal with issues such as the high drop-out rate, lack of sufficient health care, substance abuse and violence. In addition, the Foundation will consider programs that address poverty issues and assist the economically disadvantaged. Programs aimed at solutions to or the prevention of these problems are favored.
