<https://www.epa.gov/research-grants/cumulative-health-impacts-intersection-climate-change-environmental-justice-and>

The program supports transdisciplinary research with approaches that explore and analyze environmental problems. Specifically, proposed projects should address all of the following research questions: What may

be the most influential community-, population- or lifestage-specific vulnerabilities caused by ongoing climate change that would elevate exposure to pollutants or contaminants and further exacerbate the health effects from exposure to pollutants or contaminants in underserved communities? What are the cumulative health impacts of climate change-related stressors on vulnerable groups or susceptible lifestages in underserved communities? And how can community-based scientific research results be translated or applied to provide effective solutions to reduce climate change impacts on human health in underserved communities?

### **\*\* NEW! - L.B. Research and Education Foundation**

**Deadline:** Ongoing

**Amount:** \$10,000 to \$75,000

**Eligibility:** Nonprofits

**Summary:** Grants are provided to organizations that address one of the following areas: In the Education category, the focus is on supporting inventive approaches that boost engagement and achievement for populations that face education opportunity gaps tied to poverty, gender, race/ethnicity, trauma, etc. The Foundation values educational approaches that foster independent and critical thinking, activate creativity, and/or offer alternatives to traditional education. Project ideas serving any age group, from early childhood through postsecondary and vocational education are considered. In the Health category, the focus is on addressing health issues that are prevalent among vulnerable populations who face barriers to accessing adequate care. The Foundation has a particular interest in supporting efforts that remove the stigma of mental illness and that increase the awareness of the prevalence of these issues, especially in underserved populations. Priority in both categories is given to proposals that have a specific research or dissemination mechanism in place for the community solution that could lead to positive changes on a regional, national, or global scale.

**Contact Information:** Interested organizations are invited to email a 400 word or less description of their funding idea to inquiries@thelbfoundation.org. (The Foundation does not currently have a website.)

<http://www.dgs.ca.gov/opsc/Programs/facilityhardshipprogram.aspx>

The Facility Hardship program assists districts with funding when it has been determined that the district has

a critical need for pupil housing because the condition of the facilities, or the lack of facilities, presents an imminent threat to the health and safety of the pupils. There are two types of Facility Hardship projects based on the Current Replacement Cost:

1. Replacement: Cost to mitigate the health and safety threat is greater than 50 percent of the cost of replacement.
2. Rehabilitation: Cost to mitigate the health and safety threat is less than 50 percent of the cost of replacement.

#### **California Office of Public School Construction (OPSC): Seismic Mitigation Program**

**U.S. Department of Health and Human Services: Practice-Based Suicide Prevention Research Centers**

Deadline: January 26, 2022

Amount: Up to \$2 million

Match: No

Eligibility: Nonprofits, independent school districts, IHEs, counties, cities, special districts, public housing authorities and tribal governments

<https://grants.nih.gov/grants/guide/pa-files/PAR-20-286.html>

This Funding Opportunity Announcement (FOA) invites applications for research centers to support integrated programs of high-impact, practice-based research with near-term potential to address NIMH suicide prevention priorities and help achieve the National Action Alliance for Suicide Prevention goals of reducing the rate of suicide in the US. The Centers are intended to support transdisciplinary teams of clinical and mental health services researchers, behavioral/social scientists, health information and communications technologists, health systems engineers, decision scientists, and mental health stakeholders (e.g., service users, family members, clinicians, payers) engaged in transdisciplinary programs of research that could not be achieved using standard research project grant mechanisms. Research Centers will support the rapid development, refinement, and testing of effective and scalable approaches for intervening at key intercepts in the chain of care: for identifying high-risk individuals, for promoting continuity across key care transitions (e.g., following identification in the emergency department or discharge from inpatient care), and for intervening (including prevention strategies and treatment for acute risk)

**\*\* NEW! - U.S. Department of Health and Human Services: Enhanced Interpersonal Focused Strategies for Suicide Prevention Interventions**

Deadline: February 18, 2022

Amount: Up to \$450,000

Match: No

Eligibility: Cities, counties, school districts, nonprofits, public housing authorities, IHEs, small businesses, for-profit organizations and tribal governments and organizations

<https://grants.nih.gov/grants/guide/rfa-files/RFA-MH-22-125.html>

This initiative encourages research focused on development of and testing the effectiveness of intervention approaches that utilize enhanced interpersonal strategies to strengthen and compliment efforts in suicide prevention. Existing suicide prevention practices emphasize safety management protocols and intrapersonal coping skills but tend to focus less on strategies addressing interpersonal targets that contribute to suicide risk. The intent of this initiative is to develop and/or utilize interpersonal treatment strategies that reduce risk by enhancing perceived social supports and connections that contribute to life-affirming beliefs, intentions, and behaviors, in ways consistent with conceptual models of suicide risk, to enhance the effectiveness of existing evidence-based treatments and develop new approaches, as indicated.

**U.S. Department of Health and Human Services: Ready Tools for Identification, Prevention, and Treatment of Individuals at Risk for Suicide**

Funding Opportunity Number: NOT-MH-21-110

Deadline: June 15, 2022

Amount: Not specified

Match: No

Eligibility: Nonprofits, for-profit organizations, private, public and state-controlled IHEs, Native American governments and organizations, cities, counties, states, special districts and independent school districts  
<https://www.grants.gov/web/grants/view-opportunity.html?oppId=328531>

NIMH seeks applications for research projects to evaluate the effectiveness of service-ready tools and technologies that can be used to advance training, quality monitoring, and quality improvement efforts and ultimately improve the availability of evidence-based suicide prevention services. Specifically, this initiative encourages research on the effectiveness-implementation continuum aimed at (1) developing and testing the effectiveness of optimized, service-ready suicide prevention tools for identification, prevention, and treatment of individuals at risk for suicide; and (2) testing strategies to improve adoption, implementation fidelity, and sustained use of these tools, guided by an implementation science framework. Given the focus on practice-ready accessible resources and products that could be readily integrated into practice, NIMH encourages the use of technology and other design features that make the tools scalable and robust against implementation drift, and a deployment-focused approach that takes into account the perspectives of key stakeholders (e.g., service users, providers, administrators) and system-level factors, such as workforce capacity that influence potential integration of tools into clinical workflows.

Deadline: Reviewed quarterly

Amount: \$500 to \$5,000

Eligibility: Teachers

<https://educatorsusa.org/our-programs/micro-grants/>

Outfitting a school or classroom with the correct technological resource can further the reach of teachers, enhance the skills of students, and create endless opportunities of education methods. Using web-connected devices, electronic whiteboards, tablets, VR systems and STEM Labs are a much better use of resources than new textbooks due to their engagement abilities and high levels of usability. Children in schools today are far better equipped with knowledge of technological and internet-equipped devices than ever before. Grant provides classroom technology.

Match: Yes

Eligibility: Cities, counties, states, special districts, IHEs, nonprofits and tribal governments

<https://www.grants.gov/web/grants/view-opportunity.html?oppId=334720>

EDA aims to assist communities and regions impacted by the coronavirus pandemic. The pandemic has caused, and continues to cause, economic injury to U.S. communities and regions in devastating and unprecedented ways. Program is designed to help get Americans back to work by developing and strengthening regional systems to develop and execute sectoral partnerships that will lead to well-paying jobs. The goal of regional workforce training systems is to create and implement effective employer-driven training programs that will connect the existing and emerging skills needs of employers with workers and will help workers find and keep quality jobs and advance along their chosen career path. EDA encourages systems and partnerships to address populations with labor market barriers such as persons with disabilities, at-risk youth, individuals in recovery, individuals with past criminal records including justice-impacted and reentry participants, and veterans.
