Eligibility: Cities, counties, special districts, JPAs, public school districts, nonprofits and tribal governments

<https://www.calrecycle.ca.gov/Tires/Grants/TDA/>

The fundamental goal of the TDA Grant Program is to promote the development of long-term, sustainable, and diversified markets for California's tire-derived products. Tire-derived aggregate (TDA) is a significant use of recycled tires in the United States and provides a cost-effective alternative to conventional aggregate for use in various civil engineering projects. These uses include retaining wall backfill, lightweight embankment fill, landslide stabilization, vibration mitigation, low impact development, and various landfill applications.

Eligibility: Cities, counties, park districts, special districts, state agencies and qualifying Indian tribes

<https://www.calrecycle.ca.gov/Tires/Grants/Pavement/>

The Department of Resources Recycling and Recovery (CalRecycle) administers a program to provide opportunities to divert waste tires from landfill disposal, prevent illegal tire dumping, and promote markets for recycled-content tire products. The Rubberized Pavement Grant Program is designed to promote markets for recycled-content surfacing products derived from only California-generated waste tires. U.S. Department of Health and Human Services: Emergency Triage, Treat, and Transport (ET3) Model

Deadline: TBD. Forecasted release April 6, 2020 *Final guidelines not available as of 8/03/20*

Amount: TBD

Match: No

Eligibility: Special districts, nonprofits, cities, counties, tribal governments, faith-based organizations

<https://www.grants.gov/web/grants/view-opportunity.html?oppId=326039>

The Emergency Triage, Treat, and Transport (ET3) model is a voluntary, five-year payment model that will provide greater flexibility to ambulance care teams to address emergency health care needs of Medicare Fee-for-Service (FFS) beneficiaries following a 911 Call. ET3 consists of three interventions: the two treat and transport interventions described in the Request for Applications and the triage intervention described in this Notice of Funding Opportunity (NOFO). Together, these interventions make up a comprehensive model for potentially improving the quality of care and lowering costs to Medicare by reducing avoidable transports to hospital emergency departments (EDs) and avoidable inpatient admissions. Through the ET3 Model NOFO, Centers for Medicare & Medicaid Services (CMS) will fund Recipients to establish or expand a Medical Triage Line. Eligible applicants are state and local governments, their designees, or other entities that operate or have oversight over an emergency communications center that receives 911 Calls. A Medical Triage Line funded through the ET3 Model will allow existing 911 systems to redirect Callers with non-emergency conditions to appropriate care alternatives.

Eligibility: Local governments

<http://www.hcd.ca.gov/policy-research/lhp.shtml#summary>

Senate Bill 2 (Chapter 364, Statutes of 2017) created a dedicated revenue source for affordable housing and directed the Department of Housing and Community Development (HCD) to allocate 70 percent of the funds

in the Building Home and Jobs Trust Fund, collected on and after January 1, 2019, to local governments through the Permanent Local Housing Allocation (PLHA). PLHA funds will be available for eligible housing-related projects and programs to assist in addressing the unmet housing needs of local communities. Annual revenue was estimated in the 2018 Budget Act at approximately \$250 million, which would make approximately \$165 million available for the PLHA program annually. Actual amounts will depend on the number of real estate documents subject to the Building Homes and Jobs Trust Fund fee recorded in a given calendar year.

California Department of Natural Resources: Environmental Enhancement and Mitigation (EEM) Grant

Deadline: The updated timeline includes an anticipated release of the solicitation in January 2021 with announcement of awards in January 2022. Information about technical assistance workshops will be available in early Fall of 2020.

Eligibility: Local, state and federal agencies, nonprofit entities

<http://resources.ca.gov/grants/environmental-enhancement-and-mitigation-eem/>

EEM projects must contribute to mitigation of the environmental effects of transportation facilities. The CTC awards grants to projects from Agency's list.

Regional bid funding is awarded to projects through a competitive process as further described in these guidelines. Lifeline funding is distributed to Fresno COG's Local Agencies based on population and can be used at the agency's discretion.

Match: Most federal projects require a local match of 11.47%. CMAQ lifeline funds may be used as a local match.

Eligibility: CMAQ funding is available to Fresno COG's member agencies, Fresno County school districts, and Fresno County public transit operators.

<https://www.fresnocog.org/project/congestion-mitigation-air-quality-cmaq-program/>

The CMAQ program enables communities to build public awareness about the link between transportation and air quality, fund technological applications to improve transportation systems, or increase transit services, as a few examples. Most of the CMAQ project categories include a wide variety of measures to decrease vehicle emissions. Policy considerations exclude highway maintenance and reconstruction projects because these activities preserve existing levels of service and are unlikely to contribute to further improvements in air quality.
