TRANSPORTATION, BUS & VEHICLE FUNDING

South Coast Air Quality Management District (AQMD): Electric Lawn and Garden Equipment

Deadline: Not stated

Amount: Discounted equipment. One equivalent operable gasoline- or diesel-powered piece of lawn and garden equipment must be scraped to qualify for incentive funding towards battery electric replacement equipment.

Eligibility: Local governments, school districts, nonprofit organizations

<http://www.aqmd.gov/home/programs/community/lawn-and-garden-equipment>

AQMD recently announced \$2.5 million in incentive funds to help commercial gardeners and landscapers, local governments, school districts, colleges and non-profit organizations buy new zero-emission, battery-electric commercial-grade lawn and garden equipment and scrap and replace their old, polluting gasoline- or diesel-powered equipment. Participants may receive up to 60 percent off the purchase price for new equipment. This program is not available to individual residents who are not gardeners or landscapers. Participants will receive significant discounts applied at point of purchase on approved equipment. For example, a leaf blower with a backpack battery and a charger that retails for \$1,400 can be purchased for only \$560 plus tax, a 60 percent discount. Priority will be given to participants that are located in environmental justice or disadvantaged communities in the South Coast Basin. **PROGRAM**

GOALS: Improve air quality by exchanging older, polluting gasoline- or diesel-powered commercial lawn and garden equipment for new zero emission, battery electric commercial grade equipment for operation within South Coast Air Quality Management District (SCAQMD) four county region. Special focus will be given to environmental justice (EJ) or disadvantaged communities.

San Joaquin Valley Air Pollution Control District: Electric School Bus Incentive Program

Deadline: Continuous

Amount: Up to \$400,000

Match: Not specified

Eligibility: Must be in SJVAPCD eligible counties. The applicant must be the school bus owner that is a public school district, Joint Power Authorities (JPA), or private company that is contracted with a public school to transport public school children to and from school.

<http://valleyair.org/grants/electric-school-bus.htm>

The Electric School Bus Incentive Program provides monetary incentives for the replacement of existing diesel yellow school buses that transport public school children to and from school with all electric school buses. Eligible applicants are public school districts, Joint Power Authorities (JPA), and privately owned yellow school buses that are contracted with a public school to transport public school children. Applicants must obtain an executed contract from the SJVAPCD prior to the order or purchase of new all electric school bus.

San Joaquin Valley Air Pollution Control District: New Alternative Fuel Vehicle Purchase

Deadline: Not specified

Amount: \$20,000 per vehicle, up to \$100,000 per agency

Eligibility: Public agency such as cities, counties, special districts, public educational institutions

<http://www.valleyair.org/Home.htm>

SJVAPCD is currently accepting applications from public agencies requesting funding of up to \$20,000 per vehicle, for the purchase of new alternative-fuel vehicles.

San Joaquin Valley Air Pollution Control District: Statewide School Bus Retrofit Program

Deadline: Continuous until funding is exhausted

Amount: Up to \$20,000 per school bus

Match: Any costs not covered by the grant award

Eligibility: Any California public school district that directly provides transportation services, Joint Power Authority (JPA) that owns school buses, or private transportation agency that provides student transportation services under contract to public school districts are eligible to participate in this program. Private school districts are not eligible.

<http://valleyair.org/grants/schoolbus.htm#>

The San Joaquin Valley Air Pollution Control District has announced that there is some limited funding available for the Statewide School Bus Retrofit Program. The purpose of this program is to provide assistance to California school districts with compliance of ARB's in-use Truck and Bus Regulation. This program will provide incentive funds to retrofit 1991 and newer engine model year and vehicle model year school buses with an ARB verified Level-3 diesel emissions control strategy (retrofit).

The Sanitation Districts of Los Angeles County: Free Buses for Schools Program

Deadline: Continuous while funding is available

Amount: Varies. LACSD will reimburse schools for bus transportation costs.

Match: None

Eligibility: Teachers/classrooms for grades 5-12 at a public or private school in the Sanitation District's service in LA County.

http://www.lacsd.org/education/school_programs/free_bus_program.asp

The Sanitation Districts of Los Angeles County are offering you a free field trip to our facilities (while funds last). If you qualify, we will reimburse you for your bus transportation costs to visit either a wastewater treatment plant, materials recovery facility or one of our other sites. This is a unique opportunity for you and your students. You will get to see, learn, and really experience what happens to your sewage or trash. It is fun, interesting, and educational! Please note that funds for buses are limited and may run out. A school is eligible for one free bus during the school year.

ENVIRONMENTAL AND ALTERNATIVE ENERGY FUNDING

U.S. Department of Agriculture: Assistance to High Energy Cost Communities

Deadline: June 24, 2019

Amount: \$100,000 to \$3 million

Match: No

Eligibility: Counties, cities, special districts, nonprofits, state governments, school districts, public housing authorities, institutions of higher education and Native American tribal governments

<https://www.rd.usda.gov/programs-services/high-energy-cost-grants>

The Rural Utilities Service (RUS), an agency of the United States Department of Agriculture (USDA), announces the availability of up to \$10 million in competitive grants to assist communities with extremely high energy costs. The grant funds may be used to acquire, construct, or improve energy generation, transmission, or distribution facilities serving communities where the average annual residential expenditure for home energy exceeds 275% of the national average. Eligible projects also include on-grid and off-grid renewable energy projects and the implementation of energy efficiency and energy conservation projects for eligible communities. Projects cannot be for the primary benefit of a single household or business. Grant funds may not be used for the preparation of the grant application, operating costs, or for the purchase of any equipment, structures, or real estate not directly associated with the provision of community energy services.

Match: No

Eligibility: Cities, special districts, counties, state governments, private institutions of higher education, Native American tribal governments and nonprofits

<https://nij.gov/funding/Documents/solicitations/NIJ-2019-15523.pdf>

There is an extreme shortage of board-certified forensic pathologists in the United States, as underscored in the 2009 report by the National Academies of Sciences on Strengthening Forensic Science in the United States. This program will address strengthening the Medical Examiner-Coroner system in two project areas: 1.) By increasing the number and quality of board-certified forensic pathologists who choose the forensic pathology sub-specialty, following the completion of an accredited pathology medical residency program. 2. Assisting ME and Coroner offices achieve accreditation through a recognized accreditation body (examples: NAME, IACME). This program furthers the OJP's goal to increase public safety and improve the fair administration of justice across America through innovative leadership and programs. Compliance with accreditation requirements will assist medical examiner and coroner offices to strengthen the quality of services and data reporting.

U.S. Department of Justice: OJJDP FY 19 Youth Gang Suppression Implementation Grants Program**Deadline: June 24, 2019**

Amount: \$230,000

Match: No

Eligibility: Cities, counties, state governments, Native American tribal governments, nonprofits, special districts and private, public or state-controlled institutions of higher education

<https://www.ojjdp.gov/grants/solicitations/FY2019/GangSuplmp.pdf>

The purpose of this program is to support jurisdictions with an established gang presence to coordinate gang suppression efforts and activities by prosecutorial and law enforcement agencies. OJJDP has a long history of supporting community efforts to combat gang crime. Through OJJDP's Comprehensive Gang Model, communities can implement a comprehensive approach to gang crime and youth violence reduction. Suppression is a key component of OJJDP's Comprehensive Gang Model. Focused deterrence and suppression strategies can dissuade individuals and gangs from committing crimes. Such approaches highlight the punishments or legal recourse that will ensue in the commission of a crime and discourage the person or group from committing crimes in the future. These efforts, coupled with the other key components of the Comprehensive Gang Model, offer a holistic approach to support the efforts of law enforcement in combatting gang crime and promote public safety in communities. Eligible applicants will be required to implement OJJDP's Comprehensive Gang Model by working with the National Gang Center, and may use grant funds to support gang suppression activities.

Now! U.S. Department of Justice: Supporting Effective Interventions for Adolescent Sex Offenders and Youth with Sexual Behavior Problem

 U.S. Department of Homeland Security: 2019 Regional Catastrophic Preparedness Grant Program (Region 9)

Deadline: July 8, 2019

Amount: Up to \$1.5 million

Match:

Eligibility: Counties, independent school districts, cities and special governments

<https://www.grants.gov/web/grants/search-grants.html>

The purpose of the RCPGP is to build state and local capacity to manage catastrophic incidents by improving and expanding regional collaboration for catastrophic incident preparedness. The National Response Framework (3rd edition, 2016) (or superseding edition) defines a catastrophic incident as any natural or manmade incident, including terrorism, that results in extraordinary levels of mass casualties, damage, or disruption severely affecting the population, infrastructure, environment, economy, national morale, or government functions. The regional interdependencies of effective Prevention, Protection, Mitigation, Response, and Recovery activities require a cohesive regional approach to catastrophic planning. The objective of RCPGP is to close known capability gaps, encourage innovative regional solutions to issues related to catastrophic incidents, and build on existing regional efforts. Applicants' RCPGP projects should increase capability levels in the Food, Water, and Sheltering Community Lifeline as measured in the Housing or Logistics and Supply Chain Management core capabilities reported through the Threat and Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR). Through regional collaboration, the RCPGP supports the development and delivery of projects that address Community Lifelines, which are critical to manage catastrophic incidents. Stabilizing and restoring lifelines in catastrophes requires solutions that go beyond scaling up existing plans and capabilities to maximize the creative power of cross-sector coordination while respecting the roles of private sector partners and agency authorities at all levels of government. To this end, RCPGP applicants are encouraged to develop projects that build a continuous cycle of planning, organizing, training, and exercising with regional partners across the whole community to improve their collective readiness posture. This program is intended to be regional in nature and benefit multiple States.

https://ovc.ncjrs.gov/Solicitation.aspx?utm_source=newsfromovc&utm_medium=email&utm_content=responsive_to_opioid_crisis_5.30.2018&utm_c

The Office for Victims of Crime (OVC) supports victims of mass violence and terrorism through the Antiterrorism and Emergency Assistance Program (AEAP). This program is designed to supplement the resources and services of entities responding to these acts when a jurisdiction has been overwhelmed after such an incident. Funding for this program comes from the Antiterrorism Emergency Reserve (the Emergency Reserve). AEAP grants are a mechanism by which the Director of OVC may award supplemental crime victim compensation and assistance to respond to an act of domestic terrorism or mass criminal violence. The criminal act has to be of sufficient magnitude that the jurisdiction cannot provide needed services to victims of the incident with existing resources and it places an undue financial hardship on the jurisdiction's ability to respond to victims of other crimes in a timely and comprehensive manner. AEAP funds can assist with crisis response in the initial aftermath of an event; help victims adapt, restore their equilibrium, and deal with the consequences of the event; and facilitate victim participation in the judicial process. AEAP is also designed to supplement state crime victim compensation administrative agencies that reimburse victims for out-of-pocket expenses related to their victimization. Additionally, training and technical assistance funds are available to identify resources, assess needs, coordinate services to victims, and develop strategies for responding to an event.

The DHSI Program provides grants to assist Hispanic-Serving Institutions (HSIs) to expand educational opportunities for, and improve the academic attainment of, Hispanic students. DHSI Program grants enable HSIs to expand and enhance the academic offerings, program quality, faculty quality, and institutional stability of colleges and universities that are educating the majority of Hispanic college students and help large numbers of Hispanic students and low-income individuals complete postsecondary degrees.

****New! U.S. National Science Foundation: Louis Stokes Alliances for Minority Participation**

Deadline: November 15, 2019

Amount: \$125,000 to \$4.5 million

Match: No

Eligibility: Two and four-year colleges (including community colleges)

https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf17579

The Louis Stokes Alliances for Minority Participation (LSAMP) program is an alliance-based program. The program's theory is based on the Tinto model for student retention. The overall goal of the program is to assist universities and colleges in diversifying the nation's science, technology, engineering and mathematics (STEM) workforce by increasing the number of STEM baccalaureate and graduate degrees awarded to populations historically underrepresented in these disciplines: African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders. The LSAMP program takes a comprehensive approach to student development and retention. Particular emphasis is placed on transforming undergraduate STEM education through innovative, evidence-based recruitment and retention strategies, and relevant educational experiences in support of racial and ethnic groups historically underrepresented in STEM disciplines. The LSAMP program also supports knowledge generation, knowledge utilization, program impact and dissemination type activities. The program seeks new learning and immediate diffusion of scholarly research into the field. Under this program, funding for STEM educational and broadening participation research activities could include research to develop new models in STEM engagement, recruitment and retention practices for all critical pathways to STEM careers or research on interventions such as mentoring, successful learning practices and environments, STEM efficacy studies, and technology use. Overall, the LSAMP program provides funding to alliances that implement comprehensive, evidence-based, innovative, and sustained strategies that ultimately result in the graduation of well-prepared, highly-qualified students from underrepresented minority groups who pursue graduate studies or careers in STEM. Project types under this program include:

1. Alliances. Alliances are consortia of multiple degree-granting institutions. Organizations from other sectors, including informal science organizations, may be participants. Projects focus on pre-college and undergraduate recruitment and retention activities. Types of LSAMP alliances are described as follows:
 - a. STEM Pathways Implementation-Only Alliance projects are mainly focused on a particular STEM pathway, e.g., entry into college, first two years, or preparation for entry into graduate studies. Additionally, the project may focus on activities dedicated to diversifying a particular STEM discipline, e.g., production of mathematicians. These projects are targeted to newly-created alliances, reconstituted alliances or alliances that have received support by the program for less than 10 years. Projects are five years in duration.
 - b. STEM Pathways and Research Alliances are projects that focus on the full STEM pathway and provide direct support for undergraduate students but also serve as a hub for the production of scholarly STEM research and evaluation to increase the knowledge-base and utilization in broadening participation. Both components must be addressed to be competitive for this project type. These are five-year projects.
 - c. Bridge to the Baccalaureate (B2B) Alliances involve associate degree producing institutions for which the lead institution must be a community college. These are three-year projects focused on activities that provide effective educational preparation of community college students from underrepresented minority populations for successful transfer to four-year institutions in STEM degree programs.

2. Bridge to the Doctorate (BD) Activity: BD projects are two-year projects eligible only to existing alliances funded 10 or more consecutive years. These projects are focused on providing post-baccalaureate fellowship support to a cohort of 12 LSAMP students for the first two years of their STEM graduate studies and providing the necessary academic and research skills that will enable them to successfully earn STEM doctoral degrees and transition into the STEM workforce.

3. Louis Stokes Regional Centers of Excellence in Broadening Participation (LSRCE). These centers can serve as regional outreach and knowledge-diffusion centers of excellence for alliance and non-alliance organizations. LSRCE's are projects that have wide latitude for design with a focus on technical assistance in the broadening participation arena, for example, and are focused on increasing the knowledge base on broadening participation topics through research, evaluation and synthesis activities. Centers do not provide direct degree production interventions or student support activities. The projects may be three or five years in duration depending on the scope of activities.

4. Pre-Alliance Planning: Pre-Alliance planning projects undertake planning activities necessary to form new alliances. Recipients of pre-alliance planning grants must commit to submission of an alliance or center proposal following the planning period. Projects are up to 18 months in duration.

5. Conferences and other supplemental funding opportunities are supported for existing LSAMP alliances or LSAMP institutions. Examples include the NSF-Department of Energy collaboration to provide cutting-edge research experiences to students and faculty participants.

US Department of Education: Project School Emergency Response to Violence (SERV) Program

Deadline: Continuous

Amount: Immediate Services grant: Up to \$50,000 for a period of six months; Extended Services grants: Up to \$250,000 for 18 months

Match: None required

Eligibility: Local education agencies (LEAs) and institutions of higher education (IHEs)

<http://www2.ed.gov/programs/dvppserv/eligibility.html>

This program funds short-term and long-term education-related services for local educational agencies (LEAs) and institutions of higher education (IHEs) to help them recover from a violent or traumatic event in which the learning environment has been disrupted. LEAs and IHEs may apply for two types of assistance under Project SERV: Immediate Services grants and

Extended Services grants. Immediate Services grants are intended to provide short-term support shortly after a traumatic event. Immediate Services grants are intended to provide a limited amount of funds to meet acute needs and restore the learning environment. Extended Services grants are intended to address the long-term recovery efforts that may be needed following a traumatic event. Extended Services applications are considered unsolicited grant applications and undergo a rigorous internal review by the Office of Safe and Healthy Students and the Office of the General Counsel. After review by staff members, the application is peer reviewed by an outside panel before being considered for funding.

The CRRL Program funds are interest-free loans and may be reimbursed with contract funds. The Early Learning and Care Division (ELCD) will accept applications continuously; however, the ELCD will award loans based on the availability of funding.

South Coast Air Quality Management District (AQMD): Electric Lawn and Garden Equipment

Deadline: Not stated

Amount: Discounted equipment. One equivalent operable gasoline- or diesel-powered piece of lawn and garden equipment must be scraped to qualify for incentive funding towards battery electric replacement equipment.

Eligibility: Local governments, school districts, nonprofit organizations

<http://www.aqmd.gov/home/programs/community/lawn-and-garden-equipment>

AQMD recently announced \$2.5 million in incentive funds to help commercial gardeners and landscapers, local governments, school districts, colleges and non-profit organizations buy new zero-emission, battery-electric commercial-grade lawn and garden equipment and scrap and replace their old, polluting gasoline- or diesel-powered equipment. Participants may receive up to 60 percent off the purchase price for new equipment. This program is not available to individual residents who are not gardeners or landscapers. Participants will receive significant discounts applied at point of purchase on approved equipment. For example, a leaf blower with a backpack battery and a charger that retails for \$1,400 can be purchased for only \$560 plus tax, a 60 percent discount. Priority will be given to participants that are located in environmental justice or disadvantaged communities in the South Coast Basin. **PROGRAM**

GOALS: Improve air quality by exchanging older, polluting gasoline- or diesel-powered commercial lawn and garden equipment for new zero emission, battery electric commercial grade equipment for operation within

South Coast Air Quality Management District (SCAQMD) four county region. Special focus will be given to environmental justice (EJ) or disadvantaged communities.

U.S. Economic Development Administration: FY2018 Disaster Supplemental Funding

Deadline: Ongoing until funds have been expended

<http://www.energy.ca.gov/efficiency/financing/>

The CEC is offering loans financing for energy efficiency and energy generation projects for local educational agencies. Projects with proven energy and demand cost savings are eligible. An energy audit report or feasibility study is required to demonstrate energy cost savings for the installed projects. Loan funds can only be used to fund project activity after the loan award has been approved and fully executed. Funding cannot be used for retroactive funding of installed projects. Examples of Qualified Projects include:

- Lighting systems
- Heating, ventilation and air conditioning equipment
- Energy management systems and equipment controls
- Pumps and motors
- Building envelope and insulation
- Energy generation including renewable energy and combined heat and power projects
- Load shifting projects, such as thermal energy storage

Reminders:

- Don't forget to update your www.grants.gov access and SAM accounts for all federal grants and for access to the 26 federal funding agencies.
- Looking for federal grants? Ask your Project Manager about custom opportunities for your district or nonprofit. Call us for more information on any federal, state, local or private grant you may come across!

California Office of Public School Construction (OPSC): Facility Hardship Program

Deadline: Continuous

Amount: Estimated \$13.7 Million left in program

Eligibility: To be eligible for a facility hardship grant the district must demonstrate that one of two conditions exists: facilities must be repaired/replaced due to an imminent health and safety threat, or existing facilities have been lost to fire, flood, earthquake or other disaster.

<http://www.dgs.ca.gov/opsc/Programs/facilityhardshipprogram.aspx>

The Facility Hardship program assists districts with funding when it has been determined that the district has a critical need for pupil housing because the condition of the facilities, or the lack of facilities, presents an imminent threat to the health and safety of the pupils. There are two types of Facility Hardship projects based on the Current Replacement Cost, as defined in School Facility Program Regulation Section 1859.2:

1. Replacement: Cost to mitigate the health and safety threat is greater than 50 percent of the cost of replacement.
2. Rehabilitation: Cost to mitigate the health and safety threat is less than 50 percent of the cost of replacement.

Eligibility: Cities, counties, state governments, nonprofits, special districts, private, public and state-controlled institutions of higher education and Native American tribal governments

<https://www.neh.gov/grants/odh/digital-humanities-advancement-grants>

Digital Humanities Advancement Grants (DHAG) support digital projects at different stages throughout their lifecycles, from early start-up phases through implementation and sustainability. Experimentation, reuse, and extensibility are hallmarks of this program, leading to innovative work that can scale to enhance scholarly research, teaching, and public programming in the humanities. This program is offered twice per year.

Proposals are welcome for digital initiatives in any area of the humanities. Through a special partnership with NEH and pending the availability of appropriated funds, the Institute of Museum and Library Services (IMLS) anticipates providing additional funding to this program to encourage innovative collaborations between museum or library professionals and humanities professionals to advance preservation of, access to, use of, and engagement with digital collections and services. IMLS and NEH may jointly fund some DHAG projects that involve collaborations with museums and/or libraries. Digital Humanities Advancement Grants may involve • creating or enhancing experimental, computationally-based methods, techniques, or infrastructure that contribute to the humanities; • pursuing scholarship that examines the history, criticism, and philosophy of digital culture and its impact on society; or • conducting evaluative studies that investigate the practices and the impact of digital scholarship on research, pedagogy, scholarly communication, and public engagement.

National Endowment of the Arts: Art Works 2, FY2020

Deadline: July 11, 2019

Amount: \$10,000 to \$100,000

An organization may submit only one application through one of the following FY 2020 categories: Art Works or Challenge America.

The Arts Endowment's support of a project may start on or after June 1, 2020. Generally, a period of performance of up to two years is allowed.

Grant Program Description

“The Arts . . . belong to all the people of the United States” *

Art Works is the National Endowment for the Arts’ principal grants program. Through project-based funding, we support public engagement with, and access to, various forms of excellent art across the nation, the creation of art that meets the highest standards of excellence, learning in the arts at all stages of life, and the integration of the arts into the fabric of community life. Projects may be large or small, existing or new, and may take place in any part of the nation’s 50 states, the District of Columbia, and U.S. territories.

We encourage applications for artistically excellent projects that address any of the following activities below:

- Honor the 2020 centennial of women’s voting rights in the United States (aka the Women’s Suffrage Centennial).
- Engage with Historically Black Colleges and Universities (HBCUs); Hispanic or Latino organizations; or the Native American, Alaskan Native, and Native Hawaiian arts.
- Celebrate America’s creativity and cultural heritage.
- Invite a dialogue that fosters a mutual respect for the diverse beliefs and values of all persons and groups.
- Enrich our humanity by broadening our understanding of ourselves as individuals and as a society.

Wallace Foundation: Education Grant Initiatives

Deadline: Continuous

Amount: Varies by grant program

Match: None

Eligibility: school districts, schools, nonprofits

<http://www.wallacefoundation.org/learn-about-wallace/GrantsPrograms/Pages/default.aspx>

The mission of the Wallace Foundation is to improve learning and enrichment opportunities for children. This is done by supporting and sharing effective ideas and practices in five major initiatives:

1. *School Leadership*: Strengthening the leadership of principals and other key figures to improve student achievement.
2. *After School*: Helping cities improve access to high-quality after-school programs through coordinating the work of government agencies, private funders, nonprofits and others groups.
3. *Summer and Expanded Learning*: Supporting school district and other efforts to expand learning time during summer and the school day or year.
4. *Arts Education*: Expanding arts learning opportunities for children and teens in school and beyond.
5. *Audience Development for the Arts*: Supporting arts organizations to develop and test ideas for reaching new audiences so that many more people might enjoy the benefits of the arts.

In each of these areas, the foundation's approach is to fund selected organizations to test promising new ideas, to conduct independent research about their efforts and related matters, and to share what we learn. The idea is to benefit grantees as well as many organizations that are interested in pursuing similar changes but may never receive direct funding.

SPORTS & PHYSICAL EDUCATION FUNDING

U.S. Department of Health and Human Services: Youth Engagement in Sports: Collaboration to Improve Adolescent Physical Activity and Nutrition (“YES” Initiative)

Deadline: May 31, 2019

Amount: Up to \$400,000 per year for two years

Match: No

Eligibility: Public and nonprofit private entities in communities of color. State governments, counties, special districts, public housing authorities, Native American tribal governments, nonprofits, private, public and state-controlled institutions of higher education

<https://www.ruralhealthinfo.org/funding/4629>

The YES Initiative seeks to support projects that address the HHS priority to expand youth participation in sports and encourage regular physical activity, especially for youth populations with lower rates of sports participation and communities with limited access to athletic facilities or recreational areas. YES Initiative applicants should address unhealthy physical activity and nutrition behaviors in racial/ethnic minority and socio-economically disadvantaged youth, including specifically girls, and provide opportunities to learn skills and gain experiences that contribute to more positive lifestyles and enhance their capacity to make healthier life choices. The YES Initiative intends to identify effective collaborations and/or existing community organizational partnerships that aim to improve physical activity and nutrition by increasing sports participation of racial/ethnic minority and/or socio-economically disadvantaged youth, including specifically girls. YES Initiative projects will develop and implement sports fitness programs based on successful evidenced based practices for youth engagement, using experimental design, and result in the identification of model sustainable strategies that increase participation in range of physical activities that support a healthy lifestyle and improve the overall health among youth who, at baseline, do not meet current physical activity guidelines. YES applicants must propose to implement programs that will serve at a minimum 130 males and/or females in 6th, 7th and/or 8th grades over the course of two years. Proposals must describe, using geographic indicators and data from representative probability-based samples surveys or other representative population data, the demographic characteristics of the populations to be served by the project, including race/ethnicity, gender, socio-economic status and geographic location. Each applicant under the YES Initiative must serve as the lead agency for the project, responsible for its implementation and management; and serve as the fiscal agent for the federal grant if awarded. The applicant organization must represent a collaborative partnership. Applicants for funding will be expected to meet each of the following expectations. Programmatic Implement sports programming that provides youth with an opportunity to sample different types of sports activities. Implement sports programming that allows for youth of all ability levels to equally participate and does not require “try-outs” or performance based exclusion of participants. Implement nutrition programming that facilitates healthy eating habits. Schedule regular programming that allows for youth to complete at least 60 minutes per day of moderate to vigorous intensity physical activity during programming. Offer practice/play experiences that are designed to match the age, ability, development needs, and fitness level of the participating youth. Administer baseline and periodic

assessments of youth participation in sports programming, amount of physical activity, and consumption of dark green, orange, and red vegetables, whole fresh fruit and sugar-sweetened beverages. Evaluate the impact of the intervention using experimental design.

Eligibility: Municipalities, school districts and nonprofit organizations

https://www.accessgolf.org/grants/alliance_grants.cfm

Grants support organizations which provide opportunities for individuals with disabilities to learn and enjoy the game of golf and its inherent values. The Alliance and the USGA share the belief that the game of golf is exceptionally well-suited to allow individuals with disabilities to participate in a recreational or competitive activity with participants who have various types of disabilities as well as those who do not have disabilities. We encourage inclusive programming – opportunities that allow participants with disabilities and participants without disabilities to learn and play the game side by side.

<http://littletikescommercial.com/in-motion-outdoors-grant-application>

The In Motion Outdoors Playground Grant will provide equipment needed to help keep kids active and fit, the in-kind product donations needed to help fund playground construction. Applicants must first submit a preliminary application and will then be contacted by a Little Tikes sales representative.

STEM FUNDING

Kinder Morgan: KM Foundation Education Grants

Deadline: The 10th of every other month beginning in January. (May 10, July 10, September 10)

Amount: \$1,000 - \$5,000

Match: None

Eligibility: Public schools, private schools, and 501(c)(3) nonprofits

http://www.kindermorgan.com/community/km_foundation.cfm

The Kinder Morgan Foundation believes that today's youth are tomorrow's leaders, and our mission is to provide them with opportunities to learn and grow. Our goal is to help today's science, math and music students become the engineers, educators and musicians who will support our diverse communities for many years to come. To accomplish this goal, we fund programs that promote the academic and artistic interests of young people in the many cities and towns across North America where Kinder Morgan operates. Focus areas include: Academic programs, including tutoring as well as Arts education programs.

Honda Foundation

Deadline: August 1, 2019 for new organizations; Deadline for returning organizations has passed

Amount: \$20,000 to \$75,000

Eligibility: Nonprofit organizations, public school district, private/public elementary and secondary schools

<https://www.honda.com/community/applying-for-a-grant>

Funding Priority: Youth education, specifically in the areas of science, technology, engineering, mathematics, the environment, job training and literacy.

Captain Planet Foundation: ecoTech Grants

Deadline: Cycle 2: July 15, 2019

Amount: Up to \$2,500

Eligibility: Applicant organizations eligible for monetary support through Captain Planet Foundation must:

• Be exempt from federal taxation under the IRS Section 501 (includes most schools and nonprofit organizations) or have a fiscal sponsor that meets this criterion. • Maintain an annual operating budget of less than \$3 million

<http://captainplanetf.wpengine.com/grants/ecotech/>

The Captain Planet Foundation is dedicated to giving the next generation of environmental stewards an active understanding and love for the natural world in which they live. The Foundation is offering ecoTech Grants to schools and nonprofit organizations for the purpose of encouraging educators and students to explore the role technology can play in designing and implementing solutions to some of our most pressing environmental challenges. ecoTech Grants are specifically offered to engage children in inquiry-based, STEM-related projects that leverage technology and use nature-based design to address environmental problems in local communities.

Development and Implementation Tier for Engaged Student Learning & Institution and Community Transformation

Beginning in FY 2018, there will be no single date deadlines for Exploration and Design proposals, which may be submitted at any time from October 1, 2017 onward. Please note however that proposals received after May 1 will be held over to the subsequent financial year for possible award (for example awards will be made in FY 19 for proposals received after May 1, 2018).

<https://www.nsf.gov/pubs/2017/nsf17590/nsf17590.pdf>

The National Science Foundation (NSF) plays a leadership role in development and implementation of efforts to enhance and improve STEM education in the United States. Through the NSF *Improving Undergraduate STEM Education* (IUSE) initiative, the agency continues to make a substantial commitment to the highest caliber undergraduate STEM education through a Foundation-wide framework of investments.

***Now!* U.S. National Science Foundation: Advanced Technological Education**

Deadline: October 3, 2019

Amount: \$70,000 to \$7.5 million

Match: No

Eligibility: Unrestricted

https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf18571

With an emphasis on two-year Institutions of Higher Education (IHEs), the Advanced Technological Education (ATE) program focuses on the education of technicians for the high-technology fields that drive our nation's economy. The program involves partnerships between academic institutions (grades 7-12, IHEs) and industry to promote improvement in the education of science and engineering technicians at the undergraduate and secondary institution school levels. The ATE program supports curriculum development; professional development of college faculty and secondary school teachers; career pathways; and other activities. The program invites research proposals that advance the knowledge base related to technician education. It is expected that projects will be faculty driven and that courses and programs credit bearing, although materials developed may also be used for incumbent worker education. The ATE program encourages partnerships with other entities that may impact technician education. The ATE program encourages proposals from Minority Serving Institutions and other institutions that support the recruitment, retention, and completion (certificate, degree, program) of students underrepresented in STEM in technician education programs that award associate degrees. NSF is particularly interested in proposals from all types of Minority Serving Institutions (including Hispanic Serving Institutions, Historically Black Colleges and Universities, Tribal Colleges and Universities, and Alaska Native and Native Hawaiian Serving Institutions) where the proportion of underrepresented students interested in advanced technology careers is growing.

U.S. National Science Foundation: Louis Stokes Alliances for Minority Participation

Deadline: November 15, 2019

Amount: \$125,000 to \$4.5 million

Match: No

Eligibility: Two and four-year colleges (including community colleges)

https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf17579

The Louis Stokes Alliances for Minority Participation (LSAMP) program is an alliance-based program. The program's theory is based on the Tinto model for student retention. The overall goal of the program is to assist universities and colleges in diversifying the nation's science, technology, engineering and mathematics (STEM) workforce by increasing the number of STEM baccalaureate and graduate degrees awarded to populations historically underrepresented in these disciplines: African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders. The LSAMP program takes a comprehensive approach to student development and retention. Particular emphasis is placed on transforming undergraduate STEM education through innovative, evidence-based recruitment and retention strategies, and relevant educational experiences in support of racial and ethnic groups historically underrepresented in STEM disciplines. The LSAMP program also supports knowledge generation, knowledge utilization, program impact and dissemination type activities. The program seeks new learning and immediate diffusion of scholarly research into the field. Under this program, funding for STEM educational and broadening participation research activities could include research to develop new models in STEM engagement, recruitment and retention practices for all critical pathways to STEM careers or research on interventions such as mentoring, successful learning practices and environments, STEM efficacy studies, and technology use. Overall, the LSAMP program provides funding to alliances that implement comprehensive, evidence-based, innovative, and sustained strategies that ultimately result in the graduation of well-prepared, highly-qualified students from underrepresented minority groups who pursue graduate studies or careers in STEM. Project types under this program include:

1. Alliances. Alliances are consortia of multiple degree-granting institutions. Organizations from other sectors, including informal science organizations, may be participants. Projects focus on pre-college and undergraduate recruitment and retention activities. Types of LSAMP alliances are described as follows:
 - a. STEM Pathways Implementation-Only Alliance projects are mainly focused on a particular STEM pathway, e.g., entry into college, first two years, or preparation for entry into graduate studies. Additionally, the project may focus on activities dedicated to diversifying a particular STEM discipline, e.g., production of mathematicians. These projects are targeted to newly-created alliances, reconstituted alliances or alliances that have received support by the program for less than 10 years. Projects are five years in duration.
 - b. STEM Pathways and Research Alliances are projects that focus on the full STEM pathway and provide direct support for undergraduate students but also serve as a hub for the production of scholarly STEM research and evaluation to increase the knowledge-base and utilization in broadening participation. Both components must be addressed to be competitive for this project type. These are five-year projects.

c. Bridge to the Baccalaureate (B2B) Alliances involve associate degree producing institutions for which the lead institution must be a community college. These are three-year projects focused on activities that provide effective educational preparation of community college students from underrepresented minority populations for successful transfer to four-year institutions in STEM degree programs.

2. Bridge to the Doctorate (BD) Activity: BD projects are two-year projects eligible only to existing alliances funded 10 or more consecutive years. These projects are focused on providing post-baccalaureate fellowship support to a cohort of 12 LSAMP students for the first two years of their STEM graduate studies and providing the necessary academic and research skills that will enable them to successfully earn STEM doctoral degrees and transition into the STEM workforce.

3. Louis Stokes Regional Centers of Excellence in Broadening Participation (LSRCE). These centers can serve as regional outreach and knowledge-diffusion centers of excellence for alliance and non-alliance organizations. LSRCE's are projects that have wide latitude for design with a focus on technical assistance in the broadening participation arena, for example, and are focused on increasing the knowledge base on broadening participation topics through research, evaluation and synthesis activities. Centers do not provide direct degree production interventions or student support activities. The projects may be three or five years in duration depending on the scope of activities.

4. Pre-Alliance Planning: Pre-Alliance planning projects undertake planning activities necessary to form new alliances. Recipients of pre-alliance planning grants must commit to submission of an alliance or center proposal following the planning period. Projects are up to 18 months in duration.

5. Conferences and other supplemental funding opportunities are supported for existing LSAMP alliances or LSAMP institutions. Examples include the NSF-Department of Energy collaboration to provide cutting-edge research experiences to students and faculty participants.

U.S. National Science Foundation: Alliances for Graduate Education and the Professoriate

Deadline: December 13, 2019

Amount: \$100,000 to \$2 million

Match: No

Eligibility: Unrestricted

https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf16552

The Alliances for Graduate Education and the Professoriate (AGEP) program seeks to advance knowledge about models to improve pathways to the professoriate and success for historically underrepresented minority doctoral students, postdoctoral fellows and faculty, particularly African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders, in specific STEM disciplines and/or STEM education research fields. New and innovative models are encouraged, as are models that reproduce and/or replicate existing evidence-based alliances in significantly different disciplines, institutions, and participant cohorts. The AGEP program goal is to increase the number of historically underrepresented minority faculty, in specific STEM disciplines and STEM education research fields, by advancing knowledge about pathways to career success. The program objectives include: To support the development, implementation and study of innovative models of doctoral education, postdoctoral training, and faculty advancement for historically underrepresented minorities in specific STEM disciplines and/or STEM education research fields; and to advance knowledge about the underlying issues, policies and practices that have an impact on the participation, transitions and advancement of historically underrepresented minorities in the STEM academy. The AGEP Transformation Alliance projects are collaborative research projects representing new strategic alliances of institutions and organizations to develop, implement, and study evidence-based models to transform doctoral education, postdoctoral training, and faculty advancement for historically underrepresented minorities in specific STEM disciplines and/or STEM education research fields. Embedded social science and education research contributes to the knowledge base about how transformational models eliminate or mitigate negative factors and promote positive policies and practices for historically underrepresented minorities. AGEP addresses academic workforce development in a broadening participation and institutional capacity building context. Strategic collaborations are encouraged with multiple academic partners, the private sector, non-governmental organizations, professional organizations, government agencies, national laboratories, field stations, teaching and learning centers, informal science centers, and other relevant STEM and/or STEM education research organizations. The AGEP program encourages project leadership by, and partnerships with, all types of minority serving institutions, such as majority minority serving institutions, historically black colleges and universities, high Hispanic enrollment institutions, tribal colleges and universities, and institutions serving native Hawaiians, native Pacific Islanders, and/or Alaskan natives.

 U.S. National Science Foundation: NSF Scholarships in Science, Technology, Engineering and Mathematics Program

Deadline: March 25, 2020

Amount: \$650,000 to \$5 million

Match: No

Eligibility: Institutions of Higher Education that grant associate, baccalaureate, or graduate degrees in the S-STEM disciplines

https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf17527

A well-educated science, technology, engineering, and mathematics (STEM) workforce is a significant contributor to maintaining the competitiveness of the U.S. in the global economy. The National Science Foundation (NSF) Scholarships in Science, Technology, Engineering, and Mathematics (S-STEM) program addresses the need for a high quality STEM workforce in STEM disciplines supported by the program and for the increased success of low-income academically talented students with demonstrated financial need who are pursuing associate, baccalaureate, or graduate degrees in science, technology, engineering, and mathematics. Recognizing that financial aid alone cannot increase retention and graduation in STEM, the program provides awards to Institutions of Higher Education (IHEs) to fund scholarships and to advance the adaptation, implementation, and study of effective evidence-based curricular and co-curricular activities that support recruitment, retention, transfer (if appropriate), student success, academic/career pathways, and graduation in STEM. The S-STEM program encourages collaborations among different types of partners: Partnerships among different types of institutions; collaborations of STEM faculty and institutional, educational, and social science researchers; and partnerships among institutions of higher education and local business and industry, if appropriate. The program seeks: 1) to increase the number of low-income academically talented students with demonstrated financial need obtaining degrees in STEM and entering the workforce or graduate programs in STEM; 2) to improve the education of future scientists, engineers, and technicians, with a focus on academically talented low-income students; and 3) to generate knowledge to advance understanding of how factors or evidence-based curricular and co-curricular activities affect the success, retention, transfer, academic/career pathways, and graduation in STEM of low-income students.

The STEM disciplines supported by the S-STEM program include:

- Biological sciences (except medicine and other clinical fields);
- Physical sciences (including physics, chemistry, astronomy, and materials science);
- Mathematical sciences;
- Computer and information sciences;
- Geosciences;
- Engineering; and
- Technology areas associated with the preceding disciplines (for example, biotechnology, chemical technology, engineering technology, information technology, etc.)

The S-STEM program particularly encourages proposals from 2-year institutions, Minority Serving Institutions (MSIs), Historically Black Colleges and Universities (HBCUs), Hispanic Serving Institutions (HSIs), tribal colleges, and urban public and rural institutions.

Boeing Company Corporate Contributions Program

Deadline: Varies by Location

Amount: Total annual giving of \$163 million

Eligibility: Nonprofit organizations where company does business

<http://www.boeing.com/principles/community-engagement.page#/seeking-support>

The Boeing Company is committed to improving the quality of life in communities around the world in which company employees live and work, and where the company does business.

The Boeing Company Corporate Contributions Program focuses on the following key areas:

Education

Support is provided for education programs designed to develop a globally competitive workforce and strong communities. The focus is on strengthening educator leadership and leadership development for students, hands-on experiential learning, early learning, and mentoring. While each community faces its own local education priorities and challenges, science, technology, engineering, and math (STEM) education is globally recognized as a key to workforce preparedness and continued innovation.

Environment

Support is provided for environmental protection and preservation programs, including energy, water, and materials conservation.

Military and Veterans

Support is provided for educational, mentoring, and job training programs to help veterans transition from military life to the private sector.

Humanitarian Relief

Boeing collaborates with its customers on humanitarian delivery flights bringing medical supplies, food supplements, equipment, and clothing for relief workers, and educational materials to those in need.

Additionally, Boeing invests in community programs supporting:

- health and human services;
- arts and culture; and,
- civic engagement.

Aerojet Rocketdyne Foundation

Amount: \$100 to \$25,000

Eligibility: Nonprofit organizations and schools in **El Segundo, Los Angeles, Sacramento and Vernon**

<http://www.aerojetrocketdyne.com/foundation>

The Aerojet Rocketdyne Foundation provides support for nonprofit organizations and schools that serve the communities where Aerojet Rocketdyne and GenCorp have a business presence. The Foundation provides grants to nonprofit organizations and schools for programs that have a STEM (science, technology, engineering, and mathematics) education focus. The Foundation seeks to inspire students' excitement about STEM and improve STEM teaching.

Andeavor Community Investments Program

Deadline: Continuous

Amount: Not specified

Eligibility: Nonprofit organizations and government entities

<http://www.andeavor.com/responsibility/community-investments/how-to-apply/>

The Andeavor Community Investments Program supports nonprofit organizations and government agencies based in locations where the company has significant operations, including: Los Angeles, CA and Martinez, CA.

The company's areas of interest include the following:

- STEM Education

The focus is on investing in STEM-related initiatives that better prepare middle school, high school, and career/technical education students for professional and academic success by increasing access to high-quality educational resources and instruction.

- Environmental Conservation and Sustainability

The focus is on supporting government agencies, environmental and community groups, and trade, professional, and industry associations devoted to efforts that protect, conserve, and sustain environmental resources. These efforts may include recycling initiatives, clean-ups, educational programs, the construction of nature trails, and research projects.

- Public Safety

The focus is on providing funding, equipment, and support to first responders, government agencies, and community-based organizations to increase the overall safety of the communities where Andeavor operates. Preference is given to projects and organizations that help communities better prepare for, mitigate the risks of and respond to disasters, hazards, and emergencies.

The company also provides limited support to community-based organizations to address local health and social service needs. Support is provided in the form of foundation grants, corporate contributions and sponsorships, workplace giving, and volunteerism.

Project Learning Garden: December 31, annually

Expected Notification Date: mid-March to late September

Match: No

Eligibility: Nonprofit organizations and K-12 schools

<https://www.captainplanetfoundation.org/>

The Captain Planet Foundation supports giving the next generation of environmental stewards by providing hands-on environmental stewardship opportunities; inspiring youth and communities to become agents of change for their environment; and, serving as a catalyst for education that uses the environment as a context for applied and STEM learning.

Amgen Foundation

Deadline: None. Requests reviewed quarterly

Amount: \$10,000 to \$1,000,000

Match: Not specified

Eligibility: Nonprofit organizations, government agencies and educational institutions. Emphasis in Thousand Oaks and South San Francisco.

<https://www.amgen.com/responsibility/amgen-foundation/>

The Amgen Foundation seeks to advance science education, improve quality of care and access for patients, and support resources that create sound communities where Amgen staff members live and work. The Foundation focuses its philanthropy in the following key areas:

- Science Education

The Foundation is committed to raising the value of science literacy on a national and local level. The Foundation seeks to identify programs that provide pivotal hands-on science experiences for students and teachers, as well as programs that support teacher quality and provide professional development in math and science.

- Community Life

The Foundation dedicates substantial resources to strengthening and enriching the community, thereby

making it a more desirable place to live and work. The focus is to fund programs that enhance civic engagement by supporting science and education-based initiatives, environmental programs, health and social services, as well as culture and arts in an effort to strengthen and enrich company communities. New! U.S. National Science Foundation: Alliances for Graduate Education and the Professoriate

Deadline: December 13, 2019

Amount: \$100,000 to \$2 million

Match: No

Eligibility: Unrestricted

https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf16552

The Alliances for Graduate Education and the Professoriate (AGEP) program seeks to advance knowledge about models to improve pathways to the professoriate and success for historically underrepresented minority doctoral students, postdoctoral fellows and faculty, particularly African Americans, Hispanic Americans, American Indians, Alaska Natives, Native Hawaiians, and Native Pacific Islanders, in specific STEM disciplines and/or STEM education research fields. New and innovative models are encouraged, as are models that reproduce and/or replicate existing evidence-based alliances in significantly different disciplines, institutions, and participant cohorts. The AGEP program goal is to increase the number of historically underrepresented minority faculty, in specific STEM disciplines and STEM education research fields, by advancing knowledge about pathways to career success. The program objectives include: To support the development, implementation and study of innovative models of doctoral education, postdoctoral training, and faculty advancement for historically underrepresented minorities in specific STEM disciplines and/or STEM education research fields; and to advance knowledge about the underlying issues, policies and practices that have an impact on the participation, transitions and advancement of historically underrepresented minorities in the STEM academy. The AGEP Transformation Alliance projects are collaborative research projects representing new strategic alliances of institutions and organizations to develop, implement, and study evidence-based models to transform doctoral education, postdoctoral training, and faculty advancement for historically underrepresented minorities in specific STEM disciplines and/or STEM education research fields. Embedded social science and education research contributes to the knowledge base about how transformational models eliminate or mitigate negative factors and promote

positive policies and practices for historically underrepresented minorities. AGEP addresses academic workforce development in a broadening participation and institutional capacity building context. Strategic collaborations are encouraged with multiple academic partners, the private sector, non-governmental organizations, professional organizations, government agencies, national laboratories, field stations, teaching and learning centers, informal science centers, and other relevant STEM and/or STEM education research organizations. The AGEP program encourages project leadership by, and partnerships with, all types of minority serving institutions, such as majority minority serving institutions, historically black colleges and universities, high Hispanic enrollment institutions, tribal colleges and universities, and institutions serving native Hawaiians, native Pacific Islanders, and/or Alaskan natives.

 U.S. National Science Foundation: NSF Scholarships in Science, Technology, Engineering and Mathematics Program

Deadline: March 25, 2020

Amount: \$650,000 to \$5 million

Match: No

Eligibility: Institutions of Higher Education that grant associate, baccalaureate, or graduate degrees in the S-STEM disciplines

https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf17527

A well-educated science, technology, engineering, and mathematics (STEM) workforce is a significant contributor to maintaining the competitiveness of the U.S. in the global economy. The National Science Foundation (NSF) Scholarships in Science, Technology, Engineering, and Mathematics (S-STEM) program addresses the need for a high quality STEM workforce in STEM disciplines supported by the program and for the increased success of low-income academically talented students with demonstrated financial need who are pursuing associate, baccalaureate, or graduate degrees in science, technology, engineering, and mathematics. Recognizing that financial aid alone cannot increase retention and graduation in STEM, the program provides awards to Institutions of Higher Education (IHEs) to fund scholarships and to advance the adaptation, implementation, and study of effective evidence-based curricular and co-curricular activities that support recruitment, retention, transfer (if appropriate), student success, academic/career pathways, and graduation in STEM. The S-STEM program encourages collaborations among different types of partners: Partnerships among different types of institutions; collaborations of STEM faculty and institutional, educational, and social science researchers; and partnerships among institutions of higher education and local business and industry, if appropriate. The program seeks: 1) to increase the number of low-income academically talented students with demonstrated financial need obtaining degrees in STEM and entering the workforce or graduate programs in STEM; 2) to improve the education of future scientists, engineers, and technicians, with a focus on academically talented low-income students; and 3) to generate knowledge to advance understanding of how factors or evidence-based curricular and co-curricular activities affect the success, retention, transfer, academic/career pathways, and graduation in STEM of low-income students.

The STEM disciplines supported by the S-STEM program include:

- Biological sciences (except medicine and other clinical fields);
- Physical sciences (including physics, chemistry, astronomy, and materials science);
- Mathematical sciences;
- Computer and information sciences;
- Geosciences;
- Engineering; and
- Technology areas associated with the preceding disciplines (for example, biotechnology, chemical technology, engineering technology, information technology, etc.)

The S-STEM program particularly encourages proposals from 2-year institutions, Minority Serving Institutions (MSIs), Historically Black Colleges and Universities (HBCUs), Hispanic Serving Institutions (HSIs), tribal colleges, and urban public and rural institutions.

<http://www.jdrown.org/mission/index.html>

The Foundation's goal is to assist individuals in becoming successful, self-sustaining, contributing citizens. The Foundation is interested in programs that break down any barrier that prevents a person from continuing to grow and learn through grant programs including:

- 1) *Education:* Education is the primary focus of the Foundation. The Foundation supports education programs in K-12, at both public and private schools, that seek to solve the existing problems in Los Angeles area schools. These grants for education reform can be made directly to the schools or to independent organizations which are closely involved with this issue. In addition, the Foundation provides funds to private secondary schools, colleges and universities for student financial assistance, in the form of both scholarships and loan programs. Favor is given to those programs directed at talented middle-income students who are unable to obtain assistance from sources specifically available to low income students.
- 2) *Community, Health, & Social Services:* The Foundation is also committed to improving the quality of life in the local community. The Foundation supports programs that encourage all individuals to reach their fullest potential. The best chance a young person has to reach that goal is to stay in school, inside a functioning family, and outside the juvenile justice system. To that end, the Foundation supports programs that deal with issues such as the high drop-out rate, lack of sufficient health care, substance abuse and violence. In addition, the Foundation will consider programs that address poverty issues and assist the economically disadvantaged. Programs aimed at solutions to or the prevention of these problems are favored. Although the Foundation recognizes the importance of Community, Health, and Social Services, it is not the Foundation's primary funding focus.
