San Gabriel Valley ROP Receives Over $10 Million in CDE Pathways Funding

The San Gabriel Valley Regional Occupational Program (ROP) is celebrating a major achievement with the award of over $10 million in funding from the California Department of Education (CDE) under the Golden State Pathways program. California Consulting Project Manager Angelica Aguilera collaborated with SGVROP to secure the grant. This substantial funding will bolster the development and expansion of several critical career pathways across San Gabriel's high schools.

Child Development Pathway

San Gabriel Valley ROP has been awarded $1,731,250 to sustain and expand the Child Development pathway at three high schools. This pathway prepares students for careers in early childhood education, providing essential skills and knowledge for the workforce.

Engineering Design Pathway

The Engineering Design pathway, present in eight high schools, has received $4,050,000. This funding will enhance the program, allowing more students to engage in hands-on learning experiences and gain valuable skills in engineering and design.

Patient Care Pathway

Five high schools will benefit from $2,175,000 allocated to the Patient Care pathway. This program focuses on training students for healthcare careers, addressing the growing demand for skilled professionals in the medical field.

Computer Science Pathway

The Computer Science pathway at four high schools will be expanded with $2,718,750 in funding. This investment will support the growing interest in technology and computer science, preparing students for high-demand careers in the tech industry.

The $10,675,000 is a significant financial support that will ensure that San Gabriel Valley ROP continues to provide high-quality education and career preparation to students, equipping them with the skills needed for future success.

Kudos to CC Project Manager, Angelica Aguilera and SGVROP administration on the instrumental collaboration in securing these funds. This award showcases SGVROP's dedication to advancing educational opportunities in the region.

SGVROP's Superintended Maura Downing, Ed.D stated: "San Gabriel Valley ROP is poised to make a lasting impact on the community by empowering students through these enhanced educational pathways. Thank you to California Consulting for their assistance in securing this funding."

California Consulting is dedicated to helping communities throughout California thrive.
