The HHS Office of Minority Health is offering funding to support State and local collaborative teams in implementing a methodological framework and strategies for assessing and addressing structural racism in health policies, developed through a complementary policy academy initiative. In particular, awardees will: (1) Obtain governmental and public buy-in for engaging in this policy collaborative endeavor; (2) Create a multi-sector team (e.g., comprised of leadership from the governor's/mayor's office and health, behavioral health, child welfare, justice, education, commerce, community service and other agencies, and from community organizations); (3) Conduct a review of existing policies to identify the areas primed for a structural racism assessment; (4) Develop or revise a policy (or policies) to address structural racism and improve health outcomes; (5) Implement the new/revised policy and evaluate its impact on health outcomes for racial and ethnic minorities within their jurisdiction; and (6) Create and implement strategies to communicate, sustain and spread policies resulting in improved health outcomes for racial and ethnic minorities. BACKGROUND: Racial and ethnic minority populations experience a number of disparities which contribute to poor health outcomes.
