National Endowment for the Arts (NEA): Challenge America

Amount: \$10,000

Due: SF 424 Due 4/12/2018 Materials and Attachments due 4/17-4/24/2018

Match: Yes 100% (*can be through a partnership*)

Eligibility: Nonprofit, tax-exempt 501(c)(3), U.S. organizations; units of state or local government; or federally recognized tribal communities or tribes may apply. Applicants

may be arts organizations, local arts agencies, arts service organizations, local education agencies (school districts), and other organizations that can help advance the goals of the National Endowment for the Arts.

Description: The Challenge America category offers support primarily to small and mid-sized organizations for projects that extend the reach of the arts to underserved populations -- those whose opportunities to experience the arts are limited by geography, ethnicity, economics, or disability. Age alone (e.g., youth, seniors) does not qualify a group as underserved; at least one of the underserved characteristics noted above also must be present. Please provide details about the underserved audience you select in your application. Grants are available for professional arts programming and for projects that emphasize the potential of the arts in community development. This category encourages and supports the following objective: **Engagement:** Public engagement with, and access to, various forms of excellent art across the nation.

Challenge America grants: Extend the reach of the arts to underserved populations, are limited to the specific types of projects outlined below, and are for a fixed amount of \$10,000 and require a minimum \$10,000 match. Partnerships can be valuable to the success of these projects. While not required, applicants are encouraged to consider partnerships among organizations, both in and outside of the arts, as an appropriate way to engage with the identified underserved audience. To ensure that Challenge America funding reaches new organizations and communities, the National Endowment for the Arts has implemented a policy to limit consecutive-year funding.

Projects:

Guest Artist project type, which refers to an arts event or events that will feature one or more guest artists. The guest artist is engaged specifically for the proposed project, and is not considered a resident artist, regular company member, or individual currently serving on the artistic staff of the applicant organization.

Public Art Projects, community-based and professionally directed. Although many kinds of arts projects take place in the public realm, for the Challenge America category, the Public Art project type is intended to support primarily **visual arts projects, which may be temporary or permanent**, such as murals, sculptures, multi-media, or environmental art, developed **through a meaningful community engagement process**. Evidence of community involvement should be apparent in the planning, design, or fabrication of the work, and should include a professional lead artist.

Cultural Tourism, specifically the unified promotion of community-wide arts activities and/or the development of cultural tourism products to enhance public engagement with arts and culture in communities and in cultural districts (including the marketing and promotion of arts and culture to populations that have been historically underserved). NOTE: Promotional projects for a single organization are not eligible. Unified promotion is defined as the professional assessment, design, and/or distribution of public relations and marketing tools (calendars, websites, radio and television, brochures, rack cards, signage, etc.) designed to benefit several local organizations in a community.

The Foundation's goal is to assist individuals in becoming successful, self-sustaining, contributing citizens. The Foundation is interested in programs that break down any barrier that prevents a person from continuing to grow and learn through grant programs including:

- 1) *Education*: Education is the primary focus of the Foundation. The Foundation supports education programs in K-12, at both public and private schools, that seek to solve the existing problems in Los Angeles area schools. These grants for education reform can be made directly to the schools or to independent organizations which are closely involved with this issue. In addition, the Foundation provides funds to private secondary schools, colleges and universities for student financial assistance, in the form of both scholarships and loan programs. Favor is given to those programs directed at talented middle-income students who are unable to obtain assistance from sources specifically available to low income students.
- 2) *Community, Health, & Social Services*: The Foundation is also committed to improving the quality of life in the local community. The Foundation supports programs that encourage all individuals to reach their fullest potential. The best chance a young person has to reach that goal is to stay in school, inside a functioning family, and outside the juvenile justice system. To that end, the Foundation supports programs that deal with issues such as the high drop-out rate, lack of sufficient health care, substance abuse and violence. In addition, the Foundation will consider programs that address poverty issues and assist the economically disadvantaged. Programs aimed at solutions to or the prevention of these problems are favored. Although the Foundation recognizes the importance of Community, Health, and Social Services, it is not the Foundation's primary funding focus.

The After School Education and Safety (ASES) Program is the result of the 2002 voter-approved initiative, Proposition 49. These programs are created through partnerships between schools and local community resources to provide literacy, academic enrichment and safe, constructive alternatives for students in kindergarten through ninth grade. Funding is designed to: (1) maintain existing before and after school program funding; and (2) provide eligibility to all elementary and middle schools that submit quality applications throughout California. The Renewal application is for existing grant recipients who wish to continue funding at existing levels. The Universal application is for new applicants and for existing grant recipients who wish to increase funding. Approximately \$5 million in funding is available for ASES Universal grants. The remaining funds are obligated for on-going grants funded via the Renewal application. ASES programs must take place at elementary and middle/junior high schools. Nonprofit organizations may apply, but the local educational agency or the public agency must agree to act as the fiscal agent of the grant.
