## California Consulting Community

---

*"Enlisting California Consulting to oversee our grant tasks has been a great choice. Their competent team has exceeded what we thought was possible. With their close cooperation with our staff, we secured many high-value grant awards. I wholeheartedly recommend California Consulting and laud their extraordinary assistance."*

*-Superintendent Paul Lopez, Mendota Unified School District*

### ***Mendota Unified School District is Achieving their Mission through Grant Awards***

Mendota Unified School District has been an amazing partner with California Consulting. We enjoy working with MUSD's administration and have secured funding for their mission objectives.

One objective is to provide a Pre-K to Adult school curriculum that aligns with state standards and is a curriculum that achieves academic and extra-curricular excellence. The CalStat Project READ grant was secured for \$134,000 for that purpose.

Another objective is to provide a safe learning environment. California Consulting and MUSD has secured the CDE-Meal Equipment Grant for \$94,462, the California Endowment Positive School Discipline Grant for \$106,263, the Caltrans State-Legislated Safe Routes to School Program for \$117,700, and 2 awards for the CalRecycle Tire Derived Product Grant totaling \$221,890.

Finally, their desire to provide ongoing technology integration throughout the curriculum has secured the Electric Bus Incentive Program for \$62,330.

Superintendent Paul Lopez stated: "Enlisting California Consulting to oversee our grant tasks has been a great choice. Their competent team has exceeded what we thought was possible. With their close cooperation with our staff, we secured many high-value grant awards. I wholeheartedly recommend California Consulting and laud their extraordinary assistance."

Through this wonderful partnership that has spanned several years, we hope to continue "Building Scholars, Leaders, and Champions" together!
