### **Community Wildfire Prevention and Mitigation**

**Deadline:** 2024

**Amount:** up to \$500,000

<https://resources.ca.gov/Initiatives/Community-Wildfire-Prevention-and-Mitigation>

As part of the State of California's effort to strengthen community-wide resilience against wildfires, the California Governor's Office of Emergency Services (Cal OES) has partnered with the California Department of Forestry and Fire Protection (CAL FIRE) to develop a state home hardening initiative to

retrofit, harden, and create defensible space for homes at high risk to wildfires, focusing on high socially-vulnerability communities and providing financial assistance for low- and moderate-income households. Governor Gavin Newsom signed Assembly Bill 38 in 2019 authorizing Cal OES and CAL FIRE to enter into a joint powers agreement to oversee the development and implementation of the Program.

Known as the Home Hardening Program, this effort encourages cost-effective wildfire resilience measures to create fire-resistant homes, businesses, public buildings, and public spaces. Mitigation measures such as home hardening, vegetation management, defensible space, and other fuel modification activities provide neighborhood or community-wide benefits against wildfire.

<https://www.fs.usda.gov/managing-land/fire/grants>

This program, which was authorized by the Bipartisan Infrastructure Law, prioritizes at-risk communities in an area identified as having high or very high wildfire hazard potential, are low-income, or have been impacted by a severe disaster that affects the risk of wildfire. More details on these three priorities can be found in the Notices of Funding Opportunity (NOFOs) below.

The program provides funding to communities for two primary purposes:

- Develop and revise Community Wildfire Protection Plans (CWPP).
- Implement projects described in a Community Wildfire Protection Plan that is less than ten years old.

The Community Wildfire Defense Grant Program also helps communities in the wildland urban interface (WUI) implement the three goals of the National Cohesive Wildland Fire Management Strategy.

**Restore and Maintain Landscapes:** Landscapes across all jurisdictions are resilient to fire-related disturbances, in accordance with management objectives.

**Create Fire Adapted Communities:** Human populations and infrastructure can better withstand a wildfire without loss of life and property.

**Improve Wildfire Response:** All jurisdictions participate in making and implementing safe, effective, efficient risk-based wildfire management decisions.
