U.S. Department of Health and Human Services: Expanding the Opioids System Model to more comprehensively incorporate fentanyl, stimulants use, polysubstance use and associated outcomes.

Funding Opportunity Number: FOR-FD-20-029

Forecasted Release Date: November 2020 *Not released as of 1/4/21*

Forecasted Deadline: TBD

Amount: TBD

Match: No

Eligibility: For-profits, nonprofits, tribal governments and organizations, IHEs, independent school districts, public housing authorities, cities, states, special districts, small businesses and counties

<https://www.grants.gov/web/grants/view-opportunity.html?oppld=330015>

In 2018, OPSA launched an effort to develop of a quantitative system-dynamic model of the opioid crisis to help FDA a) understanding the complexity of the interconnected mechanisms of the crisis, and b) assess potential impacts (intended and unintended) of possible policy actions to address the crisis. In Sept 2019, OPSA awarded a 1-year cooperative agreement (Harvard/Mass General; FDA's RFA-FD-19-026) to complete an initial version of the model ready for policy analysis, and in Aug 2020, OPSA awarded a 1-year cooperative agreement (Harvard/Mass General; FDA's RFA-FD-20-031) to account for societal outcomes beyond overdose as well as cost-effectiveness of potential policies. The current proposal will expand the FDA's model to more comprehensively incorporate fentanyl, stimulants and polysubstance use and their interactive effects on opioids use, misuse, addiction, use disorder treatment, and associated outcomes. The main focus of this project would be on modeling the growing number of opioid overdose deaths involving people who are primarily stimulant or polysubstance users, as an important emerging aspect of the opioid crisis. The research will also include quantification of the effects of harm reduction approaches (e.g., naloxone distribution to opioid users, increasing treatment availability for Opioid Use Disorder [OUD]) on overdoses involving fentanyl and other polysubstance use. Additionally, the research will identify and incorporate aspects of mental health that are feasible for inclusion into the model.

AB 841: California Public Utilities Commission

U.S. Department of Health and Human Services: Addressing Racial and Ethnic Disparities to Improve Health Outcomes

Forecasted Post Date: December 31, 2020 *Not released as of 1/4/21*

Forecasted Deadline: March 31, 2021

Amount: \$300,000 to \$400,000

Match: No

Eligibility: States, counties, cities, special districts, independent school districts, public, private and state-controlled IHEs, tribal governments and organizations. Nonprofits

<https://www.grants.gov/web/grants/view-opportunity.html?oppId=328672>

The HHS Office of Minority Health is offering funding to support State and local collaborative teams in implementing a methodological framework and strategies for assessing and addressing structural racism in health policies, developed through a complementary policy academy initiative. In particular, awardees will: (1) Obtain governmental and public buy-in for engaging in this policy collaborative endeavor; (2) Create a multi-sector team (e.g., comprised of leadership from the governor's/mayor's office and health, behavioral health, child welfare, justice, education, commerce, community service and other agencies, and from community organizations); (3) Conduct a review of existing policies to identify the areas primed for a structural racism assessment; (4) Develop or revise a policy (or policies) to address structural racism and improve health outcomes; (5) Implement the new/revised policy and evaluate its impact on health outcomes for racial and ethnic minorities within their jurisdiction; and (6) Create and implement strategies to communicate, sustain and spread policies resulting in improved health outcomes for racial and ethnic minorities. **BACKGROUND:** Racial and ethnic minority populations experience a number of disparities which contribute to poor health outcomes. Structural racism, evidenced in residential segregation, inequitable allocation and quality of services and resources such as health care and education, disproportionate contact with the justice system, and lack of access to employment opportunities, plays a persistent and large role in historical disadvantage and supports the persistence of racial and ethnic health disparities.

California Volkswagen (VW) Mitigation Trust

Deadline: Funding exhausted as of December 2019. May reopen late 2021.

Amount: Up to \$3,250,000

Match: Match funding from the applicant is encouraged and required for school bus purchases (at least 5 percent) and all non-government owned purchases (at least 25 percent)

Eligibility: Owners of transit buses, school buses and shuttle buses. Administered by San Joaquin Valley Air Pollution Control District, but available statewide.

<http://vwbusmoney.valleyair.org/>

The Zero-Emission Transit, School and Shuttle Bus Project provides funding for new zero-emission replacement buses for owners of transit, school, and shuttle buses. This project mitigates excess NOx emissions, reduces pollution in disadvantaged and low-income communities, supports advanced technology vehicle and equipment deployments and accelerates the zero-emission transformation of the heavy-duty fleet.

CalRecycle: Tire Derived Aggregate (TDA) Grant Program

Deadline: January 27, 2021

Amount: Up to \$350,000

Eligibility: Cities, counties, special districts, JPAs, public school districts, nonprofits and tribal governments

<https://www.calrecycle.ca.gov/Tires/Grants/TDA/>

The fundamental goal of the TDA Grant Program is to promote the development of long-term, sustainable, and diversified markets for California's tire-derived products. Tire-derived aggregate (TDA) is a significant use of recycled tires in the United States and provides a cost-effective alternative to conventional aggregate for use in various civil engineering projects. These uses include retaining wall backfill, lightweight embankment fill, landslide stabilization, vibration mitigation, low impact development, and various landfill applications.

National Fish and Wildlife Foundation: Urban Waters Restoration Grant Program

Deadline: January 28, 2021

Amount: \$20,000 to \$50,000

Match: Yes

Eligibility: Nonprofit organizations, local and state government agencies, Indian tribes, and educational institutions

<https://www.nfwf.org/programs/five-star-and-urban-waters-restoration-grant-program/five-star-and-urban-waters-restoration-grant-program-2021-request-proposals>

The Five Star and Urban Waters Restoration Grant Program, an initiative of the National Fish and Wildlife Foundation, seeks to develop community capacity to sustain local natural resources for future generations by providing financial assistance to diverse local partnerships focused on improving water quality, watersheds, and the species and habitats they support. The focus is on ecological improvements, including wetland, riparian, forest, and coastal habitat restoration; wildlife conservation; community tree canopy enhancement; water quality monitoring; and green infrastructure best management practices for managing run-off. Projects should increase access to the benefits of nature, reduce the impact of environmental hazards, and engage local communities, particularly underserved communities, in project planning, outreach, and implementation.

U.S. Environmental Protection Agency: FY 2020 Training and Technical Assistance to Improve Water Quality and Enable Small Public Water Systems to Provide Safe Drinking Water

Deadline: February 12, 2021

The Partners for Fish and Wildlife (PFW) Program is a voluntary, incentive-based program that provides direct technical assistance and financial assistance in the form of cooperative and grant agreements to private landowners to restore and conserve fish and wildlife habitat for the benefit of federal trust resources. The PFW Program is delivered through more than 250 full-time staff, active in all 50 States and territories. Partners for Fish and Wildlife Program staff coordinate with project partners, stakeholders and other Service programs to identify geographic focus areas and develop habitat conservation priorities within these focus areas. Geographic focus areas define where the program directs resources to conserve habitat for federal trust species. Project work plans are developed strategically, in coordination with partners, and with substantial involvement from Service field staff. The program has been in existence since 1987 and has over 30 years of successful delivery. Project selection will seek to align or support the Secretary's priorities. It also advance the Department of the Interior's mission, U.S. Fish and Wildlife Service's mission, and PFW's mission, promote biological diversity, and based upon sound scientific biological principles. Program strategic plans inform the types of projects funded under this opportunity.

Deadline: February 2, 2021

Amount: \$700,000 to \$1.5 million

Match: Yes

Eligibility: Nonprofits, educational institutions, housing development agencies, you service conservation corps and any other public or private non-profit entity that is eligible to provide education or employment training

<https://www.grants.gov/web/grants/view-opportunity.html?oppld=330189>

Under this Funding Opportunity Announcement (FOA), DOL will award grants through a competitive process to organizations providing pre-apprenticeship services that support education, occupational skills training, and employment services to at-risk youth, ages 16 to 24, while performing meaningful work and service to their communities. In addition to construction skills training, YouthBuild applicants may include occupational skills training in other in-demand industries. This expansion into additional in-demand industries is the Construction Plus component, a priority in this grant competition. The YouthBuild model balances project-based academic learning and occupational skills training to prepare at-risk youth for career placement. The academic component assists youth who are often significantly behind in basic skill development in obtaining a high school diploma or state high school equivalency credential. The occupational skills training component prepares at-risk youth for apprenticeship and other career pathways and/or further education or training. It also supports the goal of increasing affordable housing within communities by teaching youth construction skills learned by building or significantly renovating homes for sale or rent to low-income families or transitional housing for homeless families or individuals.

MLB-MLBPA Healthy Relationships Community Grants

Deadlines: March 1, 2021; June 1, 2021; and September 1, 2021

Amount: Up to \$50,000

Eligibility: Nonprofits and non-governmental organizations

<https://www.mlb.com/mlb-community/healthy-relationships-community-grants>

The Healthy Relationships Community Grants, an initiative of Major League Baseball (MLB) and the Major League Baseball Players Association (MLBPA), seeks to address positive relationship health, with self and others. Through this initiative, MLB and MLBPA will jointly award \$3 million in funding to U.S.-based nonprofit organizations and global non-governmental organizations over 2020 and 2021. The focus is on three distinct areas: building and improving relationship skills of the next generation as a prevention strategy, building and improving mental health resiliency for vulnerable populations, and strengthening and providing critical services to survivors of domestic violence.

U.S. Department of Health and Human Services: Practice-Based Suicide Prevention Research Centers

Deadline: January 26, 2022

Amount: Up to \$2 million

Match: No

Eligibility: Nonprofits, independent school districts, IHEs, counties, cities, special districts, public housing authorities and tribal governments

<https://grants.nih.gov/grants/guide/pa-files/PA-20-286.html>

This Funding Opportunity Announcement (FOA) invites applications for research centers to support integrated programs of high-impact, practice-based research with near-term potential to address NIMH suicide prevention priorities and help achieve the National Action Alliance for Suicide Prevention goals of reducing the rate of suicide in the US. The Centers are intended to support transdisciplinary teams of clinical and mental health services researchers, behavioral/social scientists, health information and communications technologists, health systems engineers, decision scientists, and mental health stakeholders (e.g., service users, family members, clinicians, payers) engaged in transdisciplinary programs of research that could not be achieved using standard research project grant mechanisms. Research Centers will support the rapid development, refinement, and testing of effective and scalable approaches for intervening at key intercepts in the chain of care: for identifying high-risk individuals, for promoting continuity across key care transitions (e.g., following identification in the emergency department or discharge from inpatient care), and for intervening (including prevention strategies and treatment for acute risk)

U.S. Department of Health and Human Services: Ready Tools for Identification, Prevention, and Treatment of Individuals at Risk for Suicide

Funding Opportunity Number: NOT-MH-21-110

Deadline: June 15, 2022

Amount: Not specified

Match: No

Eligibility: Nonprofits, for-profit organizations, private, public and state-controlled IHEs, Native American governments and organizations, cities, counties, states, special districts and independent school districts

<https://www.grants.gov/web/grants/view-opportunity.html?oppId=328531>

NIMH seeks applications for research projects to evaluate the effectiveness of service-ready tools and technologies that can be used to advance training, quality monitoring, and quality improvement efforts and ultimately improve the availability of evidence-based suicide prevention services. Specifically, this initiative encourages research on the effectiveness-implementation continuum aimed at (1) developing and testing the effectiveness of optimized, service-ready suicide prevention tools for identification, prevention, and treatment of individuals at risk for suicide; and (2) testing strategies to improve adoption, implementation fidelity, and sustained use of these tools, guided by an implementation science framework. Given the focus on practice-ready accessible resources and products that could be readily integrated into practice, NIMH encourages the use of technology and other design features that make the tools scalable and robust against implementation drift, and a deployment-focused approach that takes into account the perspectives of key stakeholders (e.g.,

service users, providers, administrators) and system-level factors, such as workforce capacity that influence potential integration of tools into clinical workflows.

The program is dedicated to effective training of STEM graduate students in high priority interdisciplinary or convergent research areas, through a comprehensive traineeship model that is innovative, evidence-based, and aligned with changing workforce and research needs. Proposals are requested that address any interdisciplinary or convergent research theme of national priority, as noted above.

National Science Foundation: Spectrum and Wireless Innovation enabled by Future Technologies

Deadline: March 5, 2021

Amount: Minimum of \$750,000

Match: No

Eligibility: IHEs

https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf21539

The National Science Foundation's Directorates for Engineering (ENG), Computer and Information Science and Engineering (CISE), Mathematical & Physical Sciences (MPS), and Geosciences (GEO) are coordinating efforts to identify new concepts and ideas on Spectrum and Wireless Innovation enabled by

Future Technologies (SWIFT). A key aspect of the SWIFT program, now in its second year, is its focus on effective spectrum utilization and/or coexistence techniques, especially with passive uses, which have received less attention from researchers. Coexistence is when two or more applications use the same frequency band at the same time and/or at the same location, yet do not adversely affect one another. Coexistence is especially difficult when at least one of the spectrum users is passive, i.e., not transmitting any radio frequency (RF) energy. Examples of coexisting systems may include passive and active systems (e.g., radio astronomy and wireless broadband communication systems) or two active systems (e.g., weather radar and Wi-Fi). Breakthrough innovations are sought on both the wireless communication hardware and the algorithmic/protocol fronts through synergistic teamwork. The goal of these research projects may be the creation of new technology or significant enhancements to existing wireless infrastructure, with an aim to benefit society by improving spectrum utilization, beyond mere spectrum efficiency. The SWIFT program seeks to fund collaborative team research that transcends the traditional boundaries of individual disciplines.
