<https://www.grants.gov/web/grants/view-opportunity.html?oppId=328672>

The HHS Office of Minority Health is offering funding to support State and local collaborative teams in implementing a methodological framework and strategies for assessing and addressing structural racism in health policies, developed through a complementary policy academy initiative. In particular, awardees will: (1) Obtain governmental and public buy-in for engaging in this policy collaborative endeavor; (2) Create a multi-sector team (e.g., comprised of leadership from the governor's/mayor's office and health, behavioral health, child welfare, justice, education, commerce, community service and other agencies, and from

community organizations); (3) Conduct a review of existing policies to identify the areas primed for a structural racism assessment; (4) Develop or revise a policy (or policies) to address structural racism and improve health outcomes; (5) Implement the new/revised policy and evaluate its impact on health outcomes for racial and ethnic minorities within their jurisdiction; and (6) Create and implement strategies to communicate, sustain and spread policies resulting in improved health outcomes for racial and ethnic minorities. BACKGROUND: Racial and ethnic minority populations experience a number of disparities which contribute to poor health outcomes. Structural racism, evidenced in residential segregation, inequitable allocation and quality of services and resources such as health care and education, disproportionate contact with the justice system, and lack of access to employment opportunities, plays a persistent and large role in historical disadvantage and supports the persistence of racial and ethnic health disparities.

The Emergency Triage, Treat, and Transport (ET3) model is a voluntary, five-year payment model that will provide greater flexibility to ambulance care teams to address emergency health care needs of Medicare Fee-for-Service (FFS) beneficiaries following a 911 Call. ET3 consists of three interventions: the two treat and transport interventions described in the Request for Applications and the triage intervention described in this Notice of Funding Opportunity (NOFO). Together, these interventions make up a comprehensive model for potentially improving the quality of care and lowering costs to Medicare by reducing avoidable transports to hospital emergency departments (EDs) and avoidable inpatient admissions. Through the ET3 Model NOFO, Centers for Medicare & Medicaid Services (CMS) will fund Recipients to establish or expand a Medical Triage Line. Eligible applicants are state and local governments, their designees, or other entities that operate or have oversight over an emergency communications center that receives 911 Calls. A Medical Triage Line funded through the ET3 Model will allow existing 911 systems to redirect Callers with non-emergency conditions to appropriate care alternatives.
