TRANSPORTATION FUNDING

U.S. Department of Transportation: 2019 Better Utilizing Investments to Leverage Development (BUILD)

Application Deadline: July 15, 2019

Amount: \$5 million to \$25 million (if in a rural area, there is no minimum grant amount)

Match: Yes - Per the FY 2019 Appropriations Act, the Federal share of project costs for which an expenditure is made under the BUILD Transportation grant program may not exceed 80 percent for a project located in an urban area. The Secretary may increase the Federal share of costs above 80 percent for a project located in a rural area.

Eligibility: Eligible Applicants for BUILD Transportation Discretionary Grants are States, local and tribal governments, including U.S. territories, transit agencies, port authorities, metropolitan planning organizations (MPOs), and other political subdivisions of State or local governments. Multiple States or jurisdictions may submit a joint application and must identify a lead applicant as the primary point of contact. Each project party in a joint application must be an Eligible Applicant. Joint applications must include a description of the roles and responsibilities of each project party and must be signed by each project party.

<https://www.transportation.gov/BUILDgrants>

Summary: The FY 2019 Appropriations Act provided \$900 million for National Infrastructure Investments. As with previous rounds, funds for the FY 2019 BUILD Transportation program are to be awarded on a competitive basis for projects that will have a significant local or regional impact. The Act also allows DOT to use a small portion of the \$900 million for oversight and administration of grants. If this solicitation does not result in the award and obligation of all available funds, DOT may publish additional solicitations. The Consolidated Appropriations Act, 2019 specifies that BUILD Transportation Discretionary Grants may not be less than \$5 million and not greater than \$25 million, except that for projects located in rural areas the minimum BUILD Transportation Discretionary Grant size is \$1 million. The FY 2019 Appropriations Act specifies that not more than 50 percent of funds can be spent on projects located in a rural area with a population equal to or less than 200,000 and not more than 50 percent of funds can be spent on projects located in an urbanized area with a population of more than 200,000. The Department revised the definition for rural and urban projects from previous BUILD/TIGER rounds to two categories, consistent with the urban and rural funding maximums. Pursuant to the FY Consolidated Appropriations Act, 2019, no more than 10 percent of the funds made available for TIGER BUILD Transportation Discretionary Grants (or \$90 million) may be awarded to projects in a single State. Further, pursuant to the Consolidated Appropriations Act, 2019, DOT must take measures to ensure an equitable geographic distribution of grant funds, an appropriate balance in addressing the needs of urban and rural areas, and investment in a variety of transportation modes. The Consolidated Appropriations Act, 2019 requires that FY 2019 BUILD funds are only available for obligation through September 30, 2021. No FY 2019 BUILD funds may be expended after September 30, 2026. As part of the review and selection process described in the Notice of Funding Opportunity, DOT will consider whether a project is ready to proceed with an obligation of grant funds from DOT within the statutory time provided. Under the FY 2019 Appropriations Act, no waiver is possible for these deadlines. The FY 2019 Appropriations Act allows for up to 20 percent of available funds (or \$180 million) to be used by the Department to pay the subsidy and administrative costs for a project receiving credit assistance under the Transportation Infrastructure Finance and Innovation Act of 1998 ("TIFIA") program, if it would further the purposes of the BUILD Transportation Discretionary Grant program. Recipients of prior TIGER Discretionary Grants may apply for funding to support additional phases of a project awarded funds in earlier rounds of this program. However, to be competitive, the applicant should demonstrate the extent to which the previously funded project phase has been able to meet estimated project schedules and budget, as well as the ability to realize the benefits expected for the project. DOT expects that each BUILD Transportation Discretionary Grant will be administered by one of the relevant modal administrations, pursuant to a grant agreement between the BUILD Transportation Discretionary Grant recipient and the relevant modal administration.

Funding for this program comes from the Antiterrorism Emergency Reserve (the Emergency Reserve). AEAP grants are a mechanism by which the Director of OVC may award supplemental crime victim compensation and assistance to respond to an act of domestic terrorism or mass criminal violence. The criminal act has to be of sufficient magnitude that the jurisdiction cannot provide needed services to victims of the incident with existing resources and it places an undue financial hardship on the jurisdiction's ability to respond to victims of other crimes in a timely and comprehensive manner. AEAP funds can assist with crisis response in the initial aftermath of an event; help victims adapt, restore their equilibrium, and deal with the consequences of the event; and facilitate victim participation in the judicial process. AEAP is also designed to supplement state crime victim compensation administrative agencies that reimburse victims for out-of-pocket expenses related to their victimization. Additionally, training and technical assistance funds are available to identify resources, assess needs, coordinate services to victims, and develop strategies for responding to an event.

Eligibility: Fire and rescue departments

<http://www.ffsupport.org/equipment-grants/>

As in any profession, there are often much-needed tools that fire and rescue department budgets simply don't provide for. Unlike most professions, however, the consequences of firefighting and rescue personnel not having these critical items can have tragic results for both victims and first responders alike.

Many fire and rescue departments in the U.S. are under-funded and volunteer-based. This lack of funding often means that critical on-scene safety and rescue equipment is wanting. To assist these agencies, we make grants to purchase needed equipment. Our focus is on 1) funding equipment that is critical to emergency scene life and safety, 2) helping a functional department to function better, and 3) providing equipment that can be shared on a regional basis.

The purpose of the RCPGP is to build state and local capacity to manage catastrophic incidents by improving and expanding regional collaboration for catastrophic incident preparedness. The National Response Framework (3rd edition, 2016) (or superseding edition) defines a catastrophic incident as any natural or manmade incident, including terrorism, that results in extraordinary levels of mass casualties, damage, or disruption severely affecting the population, infrastructure, environment, economy, national morale, or government functions. The regional interdependencies of effective Prevention, Protection, Mitigation, Response, and Recovery activities require a cohesive regional approach to catastrophic planning. The objective of RCPGP is to close known capability gaps, encourage innovative regional solutions to issues related to catastrophic incidents, and build on existing regional efforts. Applicants' RCPGP projects should increase capability levels in the Food, Water, and Sheltering Community Lifeline as measured in the Housing or Logistics and Supply Chain Management core capabilities reported through the Threat and Hazard Identification and Risk Assessment (THIRA)/Stakeholder Preparedness Review (SPR). Through regional collaboration, the RCPGP supports the development and delivery of projects that address Community Lifelines, which are critical to manage catastrophic incidents. Stabilizing and restoring lifelines in catastrophes requires solutions that go beyond scaling up existing plans and capabilities to maximize the creative power of cross-sector coordination while respecting the roles of private sector partners and agency authorities at all levels of government. To this end, RCPGP applicants are encouraged to develop projects that build a continuous cycle of planning, organizing, training, and exercising with regional partners across the whole community to improve their collective readiness posture. The Foundation is interested in programs that break down any barrier that prevents a person from continuing to grow and learn through grant programs including:

- 1) *Education:* Education is the primary focus of the Foundation. The Foundation supports education programs in K-12, at both public and private schools, that seek to solve the existing problems in Los Angeles area schools. These grants for education reform can be made directly to the schools or to independent organizations which are closely involved with this issue. In addition, the Foundation provides funds to private secondary schools, colleges and universities for student financial assistance, in the form of both scholarships and loan programs. Favor is given to those programs directed at talented middle income students who are unable to obtain assistance from sources specifically available to low income students.

2) **Community, Health, & Social Services:** The Foundation is also committed to improving the quality of life in the local community. The Foundation supports programs that encourage all individuals to reach their fullest potential. The best chance a young person has to reach that goal is to stay in school, inside a functioning family, and outside the juvenile justice system. To that end, the Foundation supports programs that deal with issues such as the high drop-out rate, lack of sufficient health care, substance abuse and violence. In addition, the Foundation will consider programs that address poverty issues and assist the economically disadvantaged. Programs aimed at solutions to or the prevention of these problems are favored. Match: Yes

Eligibility: Counties, cities, state governments, special districts, private, public and state-controlled institutions of higher education, nonprofits, Native American tribal governments, independent school districts

<https://www.arts.gov/grants-organizations/our-town/grant-program-description>

An organization may submit as a lead applicant two applications to Our Town. A partnering organization may serve as a partner on as many applications as they like. You may apply to other National Endowment for the Arts funding opportunities, including Art Works and Challenge America, in addition to Our Town. In each case, the request must be for a distinctly different project, or a distinctly different phase of a project. If you have applied to the NEA in the past and were not recommended for funding, you may apply again to any funding opportunity, including Our Town. Program Description Our Town is the National Endowment for the Arts' creative placemaking grants program. Through project-based funding, we support projects that integrate arts, culture, and design activities into efforts that strengthen communities by advancing local economic, physical, and/or social outcomes. Successful Our Town projects ultimately lay the groundwork for systemic changes that sustain the integration of arts, culture, and design into local strategies for strengthening communities. These projects require a partnership between a local government entity and nonprofit organization, one of which must be a cultural organization; and should engage in partnership with other sectors (such as agriculture and food, economic development, education and youth, environment and energy, health, housing, public safety, transportation, and workforce development). Matching grants range from \$25,000 to \$200,000, with a minimum cost share/match equal to the grant amount. FY 2020 marks the 10 year anniversary of the Our Town program. We are looking for projects that reflect a new and catalytic way of working, and demonstrate the potential for sustained support and recognition for arts, design, and cultural strategies as integral to every phase of community development.

The Office for Victims of Crime (OVC) supports victims of mass violence and terrorism through the Antiterrorism and Emergency Assistance Program (AEAP). This program is designed to supplement the resources and services of entities responding to these acts when a jurisdiction has been overwhelmed after

such an incident. Funding for this program comes from the Antiterrorism Emergency Reserve (the Emergency Reserve). AEAP grants are a mechanism by which the Director of OVC may award supplemental crime victim compensation and assistance to respond to an act of domestic terrorism or mass criminal violence. The criminal act has to be of sufficient magnitude that the jurisdiction cannot provide needed services to victims of the incident with existing resources and it places an undue financial hardship on the jurisdiction's ability to respond to victims of other crimes in a timely and comprehensive manner. AEAP funds can assist with crisis response in the initial aftermath of an event; help victims adapt, restore their equilibrium, and deal with the consequences of the event; and facilitate victim participation in the judicial process. AEAP is also designed to supplement state crime victim compensation administrative agencies that reimburse victims for out-of-pocket expenses related to their victimization. Additionally, training and technical assistance funds are available to identify resources, assess needs, coordinate services to victims, and develop strategies for responding to an event.
