Children's Mental Health: A Basic Overview of Common Childhood Diagnoses

- Date: June 20, 2025
- Time: 9:00am - 12:00pm (PST)
- Location: Online Zoom
- Cost: \$75.00
- Instructor: Jennifer Cork, DSW, LCSW

Training Description:

This training will cover symptoms of common childhood mental health diagnoses, strategies to support children, and ways to approach parents with concerns. Participants will be able to:

- name symptoms to watch for in children that may indicate they are struggling with a mental health disorder.
- describe ways to structure the classroom schedule and learning environment in order to support children struggling with mental health diagnoses.
- describe at least three to five strategies to support children struggling with potential mental health symptoms in the classroom. name two to three resources for children with mental health diagnoses.
- outline how to approach parents with concerns about their children's mental health.
