2022 Sponsorship Package

Conceiving Dreams ~ A Celebration of Adoption
October 29, 2022

*Conceiving Dreams
A Celebration of Adoption*
Sponsored by

Adoption Options will be hosting our 19th Conceiving Dreams Dinner and Trivia Night to kick off Adoption Awareness Month on **Saturday October 29, 2022** at the Canad Inns Polo Park.

Come enjoy an evening of **FUN** and **EXCITEMENT** where tables compete against each other in a live interactive trivia game to try their luck at being the winning table. Each team answers questions from a range of topics using their experience, wit, wisdom, and some luck to outsmart the opposing teams. In addition to the trivia game, evening highlights include a great meal, rainbow auction packages, silent auction packages, and a grand prize.

The Conceiving Dreams – A Celebration of Adoption event welcomes older children who would like to sit with the adults and participate in the trivia fun!

The proceeds from Conceiving Dreams allow AO to focus on increasing public awareness and leads to financial security enabling AO to continue to provide ongoing services to Birthparents, Adoptees and Adoptive Parents

ABOUT ADOPTION OPTIONS

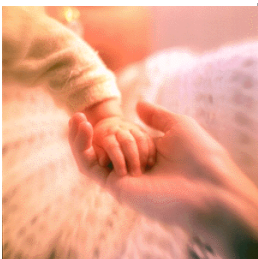

Adoption Options is a licensed, not-for-profit agency that facilitates domestic and international adoptions, and provides information, education and counselling to birthparents, adoptive families, adoptees, professionals, and the public.

Adoption Options opened its doors in September 1989 and in March 1999 Adoption Options became Manitoba's first licensed adoption agency upon proclamation of The Adoption Act. Since 1989, Adoption Options has helped to create over 575 families through private domestic and international adoption. Adoption Options leads the way in raising awareness about open adoption and in providing superior adoption services and education in Manitoba. The agency helps to create families through adoption by preparing, nurturing and advocating for all those involved in the adoption process.

For those facing an untimely pregnancy, our professional staff provides information and education to explore all of their options and help make a decision that is right for them. Adoption Options provides a non-judgmental environment and counselling throughout the process regardless of their choice. All services are at no cost to the birthparents.

Learning about adoption as an option for creating a family can help prospective adoptive parents dealing with the overwhelming emotions of infertility. Adoption Options provides education and support while facilitating all aspects of the adoption process.

*It is estimated that
20% of couples
experience some
form of infertility.*

*6 in 10 Canadians
have had personal
experience with
adoption.*

Adoption Options envisions a community in which adoption is viewed as a wonderful and natural way to create a family. Adoption Options offers free information evenings to prospective adoptive parents and specialized presentations for schools, churches and community organizations interested in learning more about adoption

*Adoption is Love
Love is Family
Family is Forever*

Adoption Options is a registered charity. Fundraising and donations are used to fund the following programs:

Birthparents Services

Hundreds of Manitoban women face unplanned pregnancies each year. For some this can be a time of great distress and sadness. Many of these women feel they have no where to turn for support.

Adoption Options provides free non-directive counselling for those facing unplanned pregnancies. Our counsellors spend many hours helping birthparents to make the decision that is right for them.

All women facing unplanned pregnancies deserve the support and services they need in order to have the healthiest pregnancy possible and to ensure they are informed of their options.

For those Birthparents who choose to place their child for adoption, Adoption Options provides ongoing support and counselling through one-on-one counselling and the Birthparent Support Group.

Adoptee Support Services

By its nature adoption raises precisely the kind of doubts and insecurities already associated with the fast changing times of adolescence. Questions arise about personal identity and the meaning of family. Adoption Options believes that all adoptees should be able to access adoption counselling and support services free of charge.

Public Awareness & Education

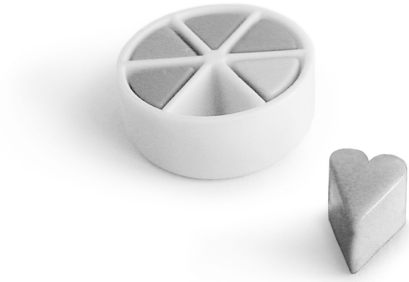

Adoption is only one of a variety of ways in which families are created. Public education that portrays adoption as a positive way to build a family validates all members of the triad (birthparents, adoptive parents, and adoptees) - reinforcing that adoption is a decision made out of love.

Public awareness and education provides an opportunity for Adoption Options to promote the benefits of adoption while reaching out to birthmothers in need of our assistance. This is achieved through the distribution of brochures, advertising opportunities and presentations to schools, universities, colleges, doctor's offices, hospitals and social service agencies and other community groups.

Your support at this event ensures that Adoption Options can continue to provide support services to birth parents in crisis and increase awareness about adoption for years to come.
