Join us for a presentation from Cromwell's COO, Dan Fowler, over the development of the East Village and history on the Paint Factory. We will wrap up the presentation with a project tour of Cromwell AE's new office provided by Dan Fowler and architect, Hrand DuValian.

Listed on the National Register of Historic Places, and originally built in the 1940s as a factory, the Paint Factory offers a rare industrial style that retains the amazing character and history of a great Arkansas success story. In addition to Cromwell's office, the Paint Factory includes Cathead's Diner, 12 Star Flats, and the Mixing Room- a Community meeting space. It is located in an up and coming neighborhood in Little Rock and is within walking distance to many local restaurants, craft breweries, world class museums, and two public schools.
