

Please Take Note: CRA Processing Delays

As a result of the COVID-19 pandemic, the Canada Revenue Agency (CRA) has temporarily delayed the processing of tax information submitted by Assante, and the rest of the financial services industry. Furthermore, CRA's Electronic Media Processing Unit is currently not accepting calls. As such, we are unable to follow up on the detailed status of any return.

CRA's *Auto-fill my return* feature

Tax information that has not yet been processed by the CRA will not yet be integrated with CRA's *Auto-fill my return* feature. Due to the current processing delays, there is an increased likelihood that taxpayers who use the *Auto-fill my return* feature will not have access to all tax slip information. Assante advises clients using the *Auto-fill my return* feature to be vigilant to ensure that they have reported all required items and reminds them that it is their responsibility to ensure all taxable income is reported.

If you have any questions, please contact our Assante Service Centre at **1-800-268-3200**.
