

EXCITING UPDATE: Benicia's Fitzgerald Field Renovation Project

BREAKING: On Tuesday, August 18, the Benicia City Council voted 3-1 in favor with the Ad Hoc Committee's recommendation of proceeding with the modified project design (which includes roofs over seating), move to complete construction documents and move forward with a Request For Proposal to complete project construction. We thank Mayor Patterson, Vice Mayor Strawbridge, Council Member Largaespada, and the staff of the Benicia Parks & Rec for helping secure the tradition of baseball at Fitz continues for years to come.

Benicia Little League would like to thank the Valero Energy Foundation and Valero employees and volunteers for the generous \$150,000 donation in October 2019 in support of our project.

And, a warm thanks to all the Benicians would have donated over the past two years who have helped this project come closer to a reality.
