MONTGOMERY TENNISPLEX
Tennis Everyone!

Camp Testimonial

"I have been so impressed by Montgomery TennisPlex and their tennis camp program. As an Emergency Room Physician, I was looking for a program that provided the kids with fun and exercise while making sure to maintain safety during this pandemic. The TennisPlex has met this completely. Their daily health check involves parents who have the responsibility to check their kids daily. When we arrive, the staff are all with masks and ensure kids are wearing them, too. They provide distancing while still having the kids play with one another. Lunch time safety is maintained with kids sitting separately and distanced from one another, or with siblings if they have them. They are responsible for cleaning up and wiping their space once finished, which is great! I am so grateful to have found this program during this pandemic and the kids have been super happy with it! Thanks Montgomery Tennisplex for thinking outside the box during this pandemic".
