

No Cost to Delaware Schools

SAFE DE: Delaware's Anonymous Reporting & Student Support Platform

Helping students speak up, connect to help, and stay safe—anytime, anywhere.

The SAFE DE program gives schools a fully funded anonymous reporting system to help identify and address concerning behaviors before they escalate into crisis. To provide this service, The Delaware School Safety Center has partnered with Lightspeed Systems, to connect students with the support and resources they need, reflecting current best practices in school safety, behavioral threat reporting, and student wellness.

How It Works

SAFE DE empowers students to take action when they see or experience something concerning. Whether it's a peer, themselves, or a general safety issue—students can access help quickly and anonymously using the SAFE DE app.

- **Report a Concern:** Submit an anonymous report to your school via app, web, or phone.
- **Text a Counselor:** Instantly connect with a trained counselor through our built-in Crisis Text Line integration.
- **Additional Resources:** Access a curated, school-approved resource library—customized to your district.

Administrators receive reports in real-time and can escalate to emergency contacts, law enforcement, or crisis responders if needed.

What's Included

- **Anonymous Reporting System:** Students can report concerns via mobile app, web, or hotline. Reports go directly to designated school teams.
- **Real-Time Incident Management Platform:** School multidisciplinary teams receive and respond to reports in a secure dashboard. Escalation protocols are built in.
- **Crisis Text Line Integration:** Students can chat directly with licensed counselors, who can initiate emergency support if necessary.
- **Customizable Resource Hub:** Each district configures its own local safety, wellness, and mental health resources.
- **Comprehensive Onboarding & Support:** Dedicated implementation and support teams walk schools through setup, onboarding, and program launch.
- **Student & Staff Training:** Built-in training to help students and adults recognize signs of distress, misconduct, or safety concerns—and take action.

Next Steps for Implementation

We urge all school leaders to:

- Review your current anonymous reporting practices.
- Meet with your leadership and safety teams to plan for SAFE DE integration.
- Contact the Delaware School Safety Center to enroll and receive:
 - *Training resources*
 - *Promotional materials*
 - *Ongoing support and updates*

No Cost to Schools

SAFE DE is fully funded by the Delaware School Safety Center—available to all public, charter, and private K-12 schools across the state.

Together, we can help students speak up before it's too late.
