michael.prillaman@proforma.com www.proformatps.com
4/6/20 Update from Proforma - due to high demand, effective 4/7/20 at 3 PM EST, manufacturers in China began requiring orders of no less of \$100,000 for 24 cases of 1,500 N95 masks/case. Providers can pool their financial resources together to complete a \$100,000 order if they so choose; however, Mr. Prillaman stated he had just received this new directive and wanted to make certain NCSLA communicated it to providers.
