

Got groceries?

Everyone needs to eat and by purchasing gift cards to local grocery stores to do your food shopping you can make a HUGE difference.

Here's the math . . .

Most stores offer an average 5% rebate to our HSA, so based on one family:

$\$400/\text{month} \times 12 \text{ months} = \4800

That's a \$240 rebate per year for ONE FAMILY!

With all 180 families participating . . .

$\$240 \times 180 = \$43,200!!!!$

Could you IMAGINE what we could do with an extra \$43,200 that is not costing anyone anything additionally?

We are looking to make this number a reality. We have done this by creating a monthly grocery program that is so user friendly everyone would be happy to use it!

First, complete the simple form with your bi-weekly or monthly order (which store and how much) and send in with your check. Can't print? Just email scrip@srles.com with your order information.

We will fulfill the order on the 1st and/or 15th of the month.

We will email you on the 7th and 21st (bi-weekly) or 21st (monthly) of the month asking if you'd like your standing order and reminding you to please send in the check. We plan to make Paypal or another online payment method available in the coming months.

This is not a 'binding' program- we realize some months fluctuate. You are not obligated to use the service every month though it is greatly encouraged and appreciated!

We are willing and able to do all the legwork to make this \$43k a reality- all we ask of you is to fill out the form, send the check and keep replying 'yes!'
