

Dear Families,

Thank you for all those who attended the snowman party. I loved seeing the children enjoy time with their family and friends.

We had a nice time at our Valentine's party. We exchanged cards and watched a movie. They were enjoying their time with each other we did not get to the activity.

Thank you for all the delicious treats and lovely gifts. I am blessed to be your child's teacher.

We celebrated Valentine's Day on Friday with our buddies as well. We made posters with hearts to show our love for each other and Jesus.

This upcoming week is our February break. There will be no school on Monday or Tuesday .We will be reviewing some concepts in Reading and Language Arts. We will have a review spelling test on Friday. The words will be in the Friday folder.

You will also find in the folder a family tree which coincides with our Social Studies unit. Please fill out the form with your child and return by Thursday, February 21<sup>st</sup>. We discussed it as a class and I am hoping I answered many of the questions they had. We will be using this for a class activity as well.

We will be looking at rocks and other materials in the science lab. We are looking for different kind of rocks along with rock salt to do and experiment on Wednesday, February 20<sup>th</sup>.

We will be making models of maps and would love some contributions of modeling clay. That activity will be happening the week of February 25<sup>th</sup>.

As the weather changes from day to day, please remember to have the children dress accordingly. I recommend the girls wear tights or blue leggings under their dresses as we will go out to recess as often as possible.

Enjoy your long weekend.

God bless,

Mrs. Heyder

**Religion:** We will continue to learn about how we gather to celebrate in the Eucharist. We will have a test on the next chapter on Friday. Vocabulary- Assembly, unite, Lord's Day, Jesus rose to new life.

**Math:** We will be beginning our unit on money. Vocabulary- Penny, nickel, dime, quarter, dollar, cent.

**Science:** We will continue our unit on Earth's changing surface. Vocabulary- Boulder, mineral, soil.
