

## WEEKLY NEWS

A short, but productive week! We enjoyed learning about George Washington and Abraham Lincoln. The childrens' idea of what their looked like in their coloring was quite interesting and entertaining! They have completed their rough draft of, If I were president...we are looking forward to the finished product! Since our chosen country is Ireland for International Week; Mrs. Salustri is teaching them some Irish songs in Music! They will also continue with that same theme in Art class. We enjoyed hosting Ms. Delaney's step up class. The children read to their younger peers; it was very sweet and special. I am so thrilled at all of the progress made in reading to date! More to come! Please reinforce the "w" sight words with your child and their vowel sounds! We are moving along in Math; having started subtraction! One of the most rewarding parts of teaching Kindergarten is watching the children grow so much. They are so excited to learn about their beautiful world in which they live. Slow down, take time to just be with your child in their moment!

### DATES TO REMEMBER

**Monday, March 18 - St. Patrick's party - 1:15PM**
