## Branching Out in 2026: The SOIL Hub Phase 3 of SOIL's Outdoor Learning Lab

The SOIL Hub will provide opportunities for meaningful connection, hands-on learning, and nature-based fun for everyone.

- NATURE ART GARDEN & STUDIO

## Help Us Bring Phase 3 to Life!

The SOIL Hub is our most ambitious vision yet. Construction is underway with all infrastructure in place and a beautiful event pavilion built from reclaimed materials finished in 2025. We are now seeking community input to refine these plans, volunteers to help with construction, and donors & business sponsors to fund this community resource. Together, let's build the future of sustainability education and action!

# Roots of Our Success

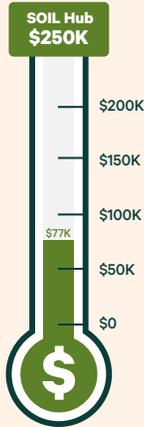

Since 2023, donors and sponsors have funded all SOIL construction, while students and community members help shape the concept. Volunteers, gardeners, and partner organizations contribute time, creativity, and diverse perspectives to bring the space to life.

## Help Fund Phase 3: The SOIL Hub

Join these supporters  
and help make  
the SOIL Hub a reality in 2026.
