

Crisis Prevention Institute (CPI): Nonviolent Crisis Intervention (NCI)

Nonviolent Crisis Intervention (NCI) training is perfect for educators who directly intervene in crisis situations, teaching staff de-escalation techniques as well as restrictive and nonrestrictive interventions.

Participants learn decision-making skills to match the level of the response to the risk of the crisis, focusing on the least-restrictive response to ensure the Care, Welfare, Safety, and SecuritySM of those in their care. This includes recognizing the stages of an escalating crisis and learning evidence-based techniques to appropriately de-escalate. NCI training emphasizes physical intervention as a last resort and appropriate to the level of risk.

Note: Be mindful of the start time, late arrivals or early departures will not be allowed. As per CPI certification policy, attendance to the entire scheduled time is mandatory. Attendees are expected to be present and participate during the discussion times throughout the training.

Participants may be photographed for use in promotional and/or news materials.
