- Forms of Contamination
- Personal Hygiene
- Cross-Contamination and Time-Temperature Control
- Purchasing, Receiving, and Storage
- Food Preparation
- Cleaning and Sanitizing

## **Regulatory Information.**

Ohio Person in Charge (PIC) Certification in Food Protection is required training for the designated person in charge for each shift of a risk level I, II, III, and IV food service operation or retail food establishment, if any of the following apply:

- A food service operation or a retail food establishment initially licensed after March 1, 2010 unless the individual has successfully completed an equivalent or more comprehensive manager certification in food protection course (Manager Certification).
- A food service operation or retail food establishment has been implicated in a foodborne disease outbreak.
- The licensor has documented a failure to maintain sanitary conditions in accordance with section 3717.29 of the Revised Code for a retail food establishment or section 3717.49 of the Revised Code for a food service operation.

**Note:** Each risk level III and IV establishment must also have at least one certified food protection manager (ServSafe Manager) with an Ohio Department of Health Manager Certification in Food Protection.
