## Fourth National Climate Assessment: Overview and Key Trends in Forests

December 18, 2018, 2:00pm to 3:30pm Eastern

Please join a webinar hosted by the Office of Sustainability and Climate and Research and Development to learn about the key findings and general overview of the most recent National Climate Assessment, specifically the chapter on forests. The webinar will focus on forests and examine other issues within the broader assessment that are relevant to national forests.

### Agenda

2:00	<b>Introduction</b> – Cynthia West ( <i>Director of Office of Sustainability and Climate, USDA Forest Service</i> ) and Toral Patel-Weynand ( <i>Director of Sustainable Forest Management Research, USDA Forest Service</i> )
2:15	<b>Summary and Key Findings</b> – David L. Peterson ( <i>Emeritus Senior Scientist, Pacific Research Station, USDA Forest Service</i> ) and James Vose ( <i>Senior Research Ecologist, Southern Research Station, USDA Forest Service</i> )
3:00	<b>Questions and Answers</b>
3:30	<b>Conclude</b>
