FOR IMMEDIATE RELEASE

Cherokee County Health Department in conjunction with Clay County Health Department, Graham County Health Department and Erlanger Western Carolina Hospital has opened a Coronavirus Community Information line.

Beginning Thursday, community members can call 828-835-4258 Monday through Friday from 9 A.M. to noon and 1P.M. to 4 P.M. to speak with a representative. There is no cost and no insurance needed. This public service provides convenient access to local health care providers who will answer their questions. This is NOT a COVID-19 test screening line.

“Cherokee County Government and our community partners have a responsibility to protect the public health and assist the community in managing emergency events,” said David Badger, Health Director, Cherokee County Health Department. “We can best meet this objective by continuing to work together to help lessen the potential spread of COVID-19 by following the previously listed guidance.”
