DHT Announces California Boiler as New Representative for Southern California

Towaco, NJ - (April 11, 2019): Diversified Heat Transfer, Inc. (DHT), a leading engineering and manufacturing company of heat transfer equipment and systems, is excited to announce California Boiler as the new manufacturer representative for Southern California for DHT's commercial and industrial product lines.

California Boiler has been supporting the Plumbing and Mechanical Industries in California for more than 35 years. Their team of experienced and dedicated employees provides a wealth of knowledge and expertise to address the unique needs of clients across a variety of industry segments.

"We're pleased to be working with a firm with the reputation and experience of California Boiler," said Tom Francullo, VP Sales- Commercial/ Industrial. "They've earned a well-deserved reputation for excellence with a full-service approach that builds strong business relationships. We believe they will be a great addition and a valuable asset in broadening the reach of DHT."

"We are very proud to be a part of the DHT team and to represent their brand. The products DHT offers complement our other product lines and will help us provide complete solution to support our customers" said John Clarkson, Senior Vice President.

About Diversified Heat Transfer: Diversified Heat Transfer (DHT), is a leading engineering and manufacturing company of heat transfer equipment and systems for the residential, commercial, and industrial markets. With more than 80 years of experience, DHT can design, build, and manufacture innovative, technology-driven products for today and the future of our industry.
