- ☐ Workforce Readiness

## Revolutionizing Your School Leadership Strategies With AI

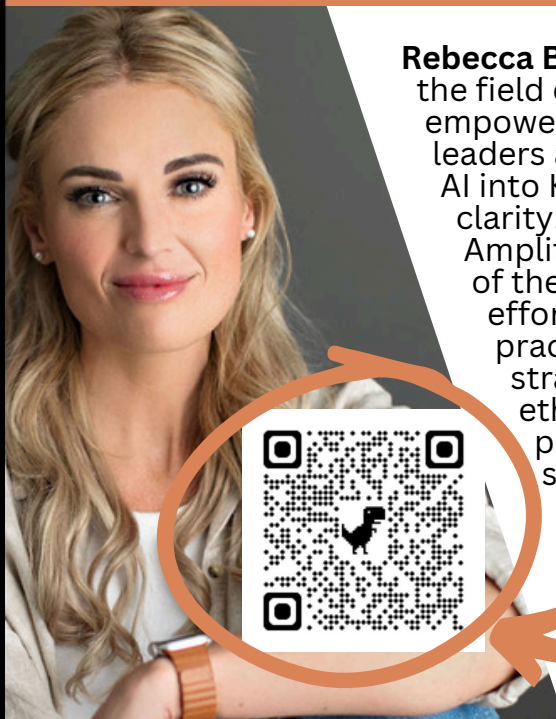

Join the Educational Service Center of Lake Erie West as we welcome internationally-recognized AI-in-education leader, Rebecca Bultsma to provide educators with an engaging and practical session designed to empower administrators with immediately applicable knowledge.

During this session, we will cover key areas such as:

- **Understanding AI in Education:** A dynamic introduction to AI, including current trends, practical applications, and emerging tools for school leadership.
- **Ethical Considerations & Policy Implications:** Discussion on data privacy, algorithmic bias, and district-wide policy considerations.
- **Interactive Engagement:** Small group discussions and activities to explore real-world AI use cases and challenges in education.
- **Strategic Implementation:** A collaborative roadmap for integrating AI throughout the school year, supporting the ESC's planned monthly AI training series.

This session will serve as a foundational module for the series, providing a comprehensive understanding of AI in education and setting the stage for the subsequent sessions.

**Lunch included. Space limited!**

**Rebecca Bultsma** is a dynamic force in the field of AI education, celebrated for empowering thousands of educators and leaders across North America to integrate AI into K-12 schools with confidence and clarity. As Chief Innovation Officer of Amplify & Elevate Innovation and cohost of the AmpED to 11 podcast, she leads efforts to revolutionize teaching practices with ethical and practical AI strategies. Rebecca's passion for ethical AI adoption and her relatable, people-first approach make her a standout leader in transforming education with cutting-edge technologies. **To visit Rebecca's website, click or scan the QR code.**
