

ALA is Member Driven

Sign Up for a Committee Today

On behalf of the American Lighting Association, I encourage you to be actively involved in the business and affairs of ALA.

Listed below are the association's committees. If one interests you, please use this form to volunteer by checking the committee(s) in the box below. Committee meetings are held during the January and June Dallas Lightovation Markets (and potentially ALA Conference) in which your participation would be requested.

While some committees have limited sizes, most do not. You are especially encouraged to sign up for the Membership Development Committee to help us **grow** the association. Thank you for your interest.

Sincerely,

A handwritten signature in blue ink that reads "Eric Jacobson".

Eric Jacobson, CAE
President & CEO
