

One of the best ways to grow your construction or transportation company is to attend this training by the US Department of Transportation. You will hear from experts in construction accounting, construction law, estimating, project management, surety, bonding, marketing and access to capital. You will also meet contacts that can tell you about the upcoming projects and how to bid on them. This program is free to companies that qualify.

HEAR WHAT GRADUATES HAVE TO SAY ABOUT THE PROGRAM

Chacon Paving

"I walked into this program with a contract and no way to get bonded. I signed my bonds for this contract. Without them, I don't know that I could have done it."

Michael Leathers

Rocky Mountain Boiler Services

"This class has been wonderful. We've gained information in construction accounting, bidding and estimating but especially in bonding. I got a call on Monday from a company that asked us to bond. I wouldn't know where to turn without this program."

Patricia Mansfield

Affordable Concrete

"I've learned a lot about contracts, bonding and accounting. We got good advice from some very smart people. We got a lot of insight into business. Would I encourage other people to come? Yes, yes, yes!"

Roger Bartlett
