

# The Student Connection

**With: Dustin Kattler**

**From: Cuyahoga Heights District**

Cuyahoga Heights High School junior, Dustin Kattler, is enrolled in CVCC's Fire and EMS Academy program, instructed by Mr. Dailey. Dustin chose to enroll in this program because he has a true passion for the field; his uncle is a firefighter and paramedic, and hopes to follow his example in pursuing the same field. Dustin really enjoys the hands-on, interactive elements of the program and feels he is in the right place to learn about the Fire and EMS field, as the curriculum has come quite naturally to him. Dustin appreciates the hands-on elements used, as well as the one-on-one opportunities for students to work directly with their instructor.

Outside of academics, Dustin wrestles for Cuyahoga Heights High School. Additionally, he does construction jobs on the side. In his free time, Dustin enjoys watching television and hanging out with friends. After graduating from high school, Dustin plans to get a job in the field right away while getting his paramedic certification. Dustin's career goal is to become a firefighter/paramedic. CVCC wishes you all the best!
