

6th Grade Summer Assignment

Upon the return to school, no reading assignment will be graded, but students will be asked what book(s) they may have read over the summer when the book study list is introduced.

All former 5th graders were given a copy of the volume 1 math book should be working on what they can (specifically chapters 3 & 4) to prep for 6th grade. Reading the math book is also a great way to practice informational reading!!

6th Grade Supply List UPDATE:

One more item that students should consider buying are headphones or earbuds that are compatible with their Chromebooks.
