

Comprehensive cancer care for Ahoskie and the surrounding communities.

The team at ECU Health Roanoke-Chowan Hospital Cancer Care & Hematology Services – Ahoskie specializes in the diagnosis and treatment of various cancers and blood disorders. Our available services include:

- Hormonal therapy
- Infusions
- Immunotherapy
- Bisphosphonate therapy
- Bone marrow biopsy
- Chemotherapy
- Neutropenia therapy
- Palliative care services
- Therapeutic phlebotomies

Multidisciplinary cancer conference with dedicated specialists in Greenville provides additional clinical expertise.

As part of the ECU Health Cancer Care network, patients have access to the latest clinical trials, cutting-edge treatments and technologies, and comprehensive support services like:

- Care navigation
- Nutrition counseling
- Genetic counseling
- Support groups and survivorship programs
- Hope Lodge and Ronald McDonald House

We are available to see patients for:

- Anemia
- Bleeding disorders
- Cancer
- Chronic leukemia (not active)
- Lymphoma
- Myeloma
- Paget's disease

To refer a patient:

 **Submit a request through EHR:**
Use CareLink or send to Referral@DirectVidantHealth.com

Improving access to advanced diagnostics with mobile PET/CT

Combined PET/CT provides a functional and anatomical image for a more accurate diagnosis than each can provide on its own. This allows our specialists to create more personalized care plans for your patients.

**Mobile PET/CT is available
every other Thursday.**
