**It's not just
about begonias...**

A Florida native who moved north, from Miami to Tequesta and now Jupiter, I have resided full time in JL since 2014. Having been extremely active in JL, I understand the needs of our 40-year-old community. I have worked hard to rejuvenate and raise the standards of the landscaping in a fiscally sound manner but there is still much to be done, in many areas. It is with a sincere desire to continue to serve and to improve the entire JL community that I have decided to run for the JLPOA Board.

Service to JL

Village of West Bay	– Current President and on the Board for the past three years.
POA Landscape Committee	– Since March 2018, Chairperson since 2019
Water Quality Subcommittee for the JL Lake	– committee member since inception

Frequent attendee at POA committee meetings (Finance, Capital Reserve) and Town Halls.
Assisted other Villages in JL with their landscaping questions and concerns

Service to Community

Jupiter Schools	– various volunteer activities, from assisting in the cafeteria up to
Elementary, Middle and HS	President of three PTOs, and numerous fundraisers
Master Gardener	– Many volunteer hours associated with the Master Gardener program for Palm Beach County

Service to our Nation and State

Americans with Disabilities Act (ADA) - significant involvement in the writing, passage through the US Congress and signing of the ADA.
State of Florida, assisted with Governor's Committee to Employ the Handicapped

Goals

- Oversee the allocation of scarce financial resources within budgets
- Closely monitor the status of infrastructure to avoid special assessments
- Restore the health of the JL lake through sound ecological practices —it can't wait!
- Continue overall landscape rejuvenation and improved maintenance standards (including mangroves and invasive plant removal)
- Ensure that terms of the new POA/Marina Agreement are met.

JL is a special place with special people. I will continue to represent all members of our community by sustained hard work, keeping our finances strong, our property values up and our community well maintained for a pleasant place to live.

I know what it means to serve.
