EDUCATION

Graduate of Niagara University with a B. S. degree in Business. During my career with Mobil Oil Corporation, I had the opportunity to attend several Executive management courses at the Northwestern Kellogg Business School and the University of Virginia's Darden Business School.

WORK EXPERIENCE

35 years with Mobil Oil Corporation in various management positions throughout the U. S. Responsible for Mobil's marketing in the L. A. Basin and in the Eastern United States. Also, in charge of Mobil's Real Estate department and, before retiring ran one of Mobil's eleven business units in the U. S. Since retiring I have established a consulting firm Kentsdale Associates. I also work with another consulting firm Servico Retail Group. In this area I have done Marketing Consulting and studies for most of the Major Oil Companies. I have also worked with several "C" stores and food chains on site selection and operating efficiencies.

OTHER CLUB MEMBERSHIP

Former member of Waynesboro Country Club in Paoli, Pennsylvania. I was on the long-range planning committee and the membership committee. I have also worked on or chaired several ad hoc committees to review specific areas for their effectiveness.

HOW CAN I MAKE A CONTRIBUTION TO THE POA BOARD

I believe JL to be the best gated communities in the area. Having been involved in several areas of the community I think that I have a good insight into the resident's expectations. With my past business experience and active community involvement I think that I can help maintain, improve, and plan for a better J L future. I hope to help to continue that objective with a sound decision making process that reflects vision in what's good for all members of the J L community.
