PAC Skills Make the Difference

A DVD Resource

This powerful DVD focuses on care partnering techniques and skills that create positive outcomes for both the care partner and the person living with dementia. Watch Teepa Snow demonstrate several techniques that serve as the foundation for her Positive Approach® to Care training programs and services. You will gain awareness and knowledge on how to use Positive Physical Approach™ (PPA) and Hand-under-Hand® (HuH), and how these care partnering techniques can help with activities of daily living.

In Chapter 1, Teepa explains the core components of your brain and how it works, how to use Positive Physical Approach and Hand-under-Hand, and demonstrates the use of these skills in how to help someone to stand, eat, or get out of bed.

In Chapter 2, Teepa describes the characteristics of the unique GEMS® states. Watch Teepa as she interacts with persons living with dementia, and learn how she uses PPA and other foundational skills to support a person in being successful in different settings throughout the day.

In Chapter 3, Teepa demonstrates, through role play, how to assist someone with mobility care, mealtime, mouth care, bathroom/bathing care, and later stage care.

Why should I purchase this DVD?

If you care for people living with dementia and want to help improve standards of care, this DVD is for you! You will learn from world renowned dementia expert, Teepa Snow, how her practical care partnering skills make a difference for both care partners and persons living with dementia. As Teepa explains “The skills we learn replace the skills they lose. By choosing to learn these skills and master them, you become the beginning of culture change. You can choose. It makes a big difference.”
