6:00 - 7:00 PM EST

Novel Options for Cardiovascular Risk Reduction in Patients with Hypertriglyceridemia

This activity will assess the cardiovascular risk in patients with hypertriglyceridemia. Expert faculty will review the safety, efficacy, and role of omega-3 fatty acids for the prevention of cardiovascular events in patients with dyslipidemia.

Ty J. Gluckman, MD, FACC, FAHA

Medical Director, Center for Cardiovascular Analytics, Research and Data Science (CARDS)
Providence Health Institute
Providence St. Joseph Health
Portland, OR

7:00 - 8:00 PM EST

Integrating Current Guideline Recommendations in Practice for the Management of T2DM: A Quality Improvement Initiative

This activity will review the cardiovascular outcomes data for SGLT-2 inhibitors and GLP-1 receptor agonists. A panel of expert faculty will discuss current guideline recommendations and discuss how to integrate the latest CV outcomes data in practice for the management of type 2 diabetes patients and patients with heart failure or kidney disease to ensure guideline concordant care and optimize outcomes.
